At 122, harmful AQI days in 2024 six more than last year

Number of days with air AQI between 0 and 200 in Delhi has stood at 201 this year so far

NITIN KUMAR
New Delhi, 20 November

The number of days with harmful air quality in Delhi has risen this year, surpassing figures from the previous years. From January 1 to November 18, there were 122 days when the air quality index (AQI) exceeded 201, compared to 116 days during the same period in 2023.

In contrast, the number of days when the AQI ranged between 0 and 200 stood at 201 this year, slightly lower than 206 days recorded last year.

According to the Central Pollution Control Board (CPCB), AQI levels between 0 and 200 are divided into three categories — good (0–50), satisfactory (51–100), and moderate (101–200).

While these levels are less harmful, their health impacts vary, ranging from minimal discomfort for sensitive individuals to moderate breathing difficulties for people with lungs, asthma, or heart conditions.

However, air quality in the poor (201–300), very poor (301–400), and severe (above 400) categories pose a significant threat to health.

Poor air quality leads to breathing discomfort for individuals during prolonged exposure, while very poor conditions can cause respiratory illnesses.

Severe levels not only affect healthy people but also severely impact those with pre-existing health issues.

The rising number of days with harmful AQI levels highlights the growing challenge of controlling air pollution. India now leads the world in the number of cities listed among the top 100 most polluted globally, surpassing China by a significant margin.

According to a recent S&P Global Mobility web presentation, 39 Indian cities feature in the list, compared to 30 cities in China, its closest competitor.

According to data from the CPCB, Delhi remains one of the most polluted cities in India. On November 18, the city recorded an average AQI of 494, the highest in the country.

Most monitoring stations in Delhi reported an AQI of 500, the upper limit of India's AQI scale.

However, the international air quality monitoring app IQAir recorded Delhi's AQI at a staggering 1,600 on the same day. The discrepancy arises from differing standards for measuring air quality across countries.

In India, the permissible limit for PM2.5 concentration is 60 micrograms per cubic metre.

Countries adhering to World Health Organization (WHO) guidelines have much stricter limits of five or 10 micrograms per cubic metre.

India's AQI scale is capped at 500, which serves as a critical threshold indicating severe pollution levels.

An AQI beyond this cap signals hazardous conditions and highlights the urgency of addressing the capital's worsening air quality.

Govt asks airlines to ensure ample staff at check-in points

DEEPAK PATEL
New Delhi, 20 November

Airlines must ensure that all check-in counters at the Delhi airport are fully staffed to minimise passenger inconvenience as smog has started affecting the flight operations, Aviation Minister Rammohan Naidu directed on Wednesday.

The minister gave this direction during a meeting with representatives of major airlines, Delhi International Airport Limited (DIAL), officials of the Ministry of Civil Aviation, Directorate General of Civil Aviation (DGCA) and the Bureau of Civil Aviation Security (BCAS).

The meeting was called on Wednesday to assess readiness of the aviation ecosystem amid the "early onset of fog/smog" in Delhi.

More than 370 flights, including departures as well as arrivals, were delayed at the Delhi airport on November 18 due to dense fog and pollution.

"Reviewing the readiness of the airport operation control room, the minister stressed the importance of real-time coordination between ATC (air traffic controller), airlines, ground handlers and airport operators to maintain seamless operation," the ministry said in a statement.

During the meeting, all the airlines confirmed adherence with the DGCA guidelines which asks them to deploy CAT-III compliant aircraft and pilots in Delhi and other fog-affected airports. The CAT-III instrument landing system (ILS) at airports enables safe aircraft landings in extremely low visibility, with CAT-III A allowing landings at a minimum visibility of 200 meters and CAT-III B at 50 meters.

"Three out of four runways at the Delhi airport have activated CAT-III ILS systems. In addition, the Delhi Airport operator has been advised to install LED screens at prominent locations to provide real-time updates on visibility conditions and to increase the availability of 'follow me' vehicles to guide aircraft during low visibility situations," the ministry mentioned.

India ranks 10th on top climate performers list

India ranked 10th on a list of over 60 countries assessed for efforts to fight climate change despite dropping two spots compared to last ago, thanks to its low per capita emissions and rapid deployment of renewables, a report said on Wednesday. The Climate Change Performance Index report leaves the first three places empty followed by Denmark (fourth place) and the Netherlands while the largest two emitters, China and the US, remain very low at 55th and 57th place, respectively. The 63 countries, along with the European Union, assessed in the CCPI are responsible for 90 per cent of global emissions. **PTI**

Now, access air quality info on Google Maps

Users across India can now access hyperlocal air quality information on Google Maps, the tech titan said on Wednesday announcing Air View+, an AI-powered and ecosystem-based solution. Google said Air View+ enables valuable air quality insights to government agencies responsible for environmental monitoring, by offering citizens hyperlocal air quality information on Google Maps.As India continues its "incredible growth momentum", backed by tech innovation and demographic advantage, it is crucial to also mitigate risks which could slow it down, Google said. **PTI**

Govt prepares logistics plan for metros to tackle traffic, pollution

SHREYA NANDI
New Delhi, 20 November

The Centre has prepared a 'City Logistics Plan' for metros such as Delhi and Bengaluru for efficient freight and logistics movement within the city, a senior official of the Department for Promotion of Industry and Internal Trade (DPIIT) said on Wednesday.

Efficient freight and logistics movement in turn will decongest large cities, reduce pollution, logistics costs, while improving the overall quality of life in cities, DPIIT Additional Secretary Rajeev Singh Thakur said.

Thakur said that the plan will help advance the government's agenda towards Ease of Doing Business (EoDB) and fulfil India's aim of achieving carbon NetZero by 2070.

LOGISTICS LAYOUT

Efficient freight and logistics movement will:

- Decongest large cities
- Reduce pollution
- Reduce logistics costs
- Improve the overall quality of life

The guideline provides a framework and methodological approach from the perspective of a city to tailor its vision, objectives and indicators to specific local needs and city characteristics, collect relevant data and analyse its freight distribution issues and choose appropriate infrastructure, policy measures and services in collaboration with other relevant actors and stakeholders.

This guideline is considered a living document that will continue to evolve through the incorporation of feedback and input from stakeholders and DPIIT will extend its support to the willing state and union territories to prepare city logistics plans.

In 2022, the government launched the National Logistics Policy which includes the support for the development of city-level logistics plans. This City Logistics Plan initiative aims to reduce the logistics costs and improve efficiency and sustainability of urban freight transport.

The official further said that several countries have adopted city logistics plans to improve the efficiency and sustainability of urban freight transport. For instance, Japan has been a pioneer in city logistics, implementing consolidation centres and other innovative solutions to manage freight effectively in densely populated urban areas. Many European countries, including Germany, France and Netherlands have developed comprehensive city logistics plans.

XIAOMI LAUNCHES ULTRA AFFORDABLE 5G SMARTPHONE

Xiaomi has launched the Redmi A4 5G in India, priced at ₹8,499 onwards (inclusive of offers). The smartphone features a 6.88-inch HD+ display of a 120Hz refresh rate, a 50MP rear camera, a 5MP front camera, and a 5,160mAh battery with 18W charging. Powered by the Qualcomm Snapdragon 4s Gen 2 processor, the smartphone is among the ultra-affordable 5G smartphones available in India. It will be available from November 27.

Google releases 1st developer preview of Android 16

Google has rolled out the first Developer Preview of Android 16 for Pixel 6 and newer models. Key features include an updated photo picker, Health Records integration, Notification Cooldown, and Audio Sharing for multiple Bluetooth headphones. The update also brings new privacy features and UI enhancements.

Asus announces ROG Phone 9 series

Asus has announced the ROG Phone 9 series, featuring the Qualcomm Snapdragon 8 Elite chip. The series includes the ROG Phone 9 and Pro models, both with a 6.78-inch Amoled display of up to 185Hz refresh rate and up to 24GB RAM. The Pro model adds a 32MP telephoto and 13MP ultra-wide camera, while both have a 50MP primary camera with a 6-axis gimbal stabilisation technology. The AniMe Vision display on the back features customisable LEDs. The phones are expected to launch in India soon.

Cricket's heavyweights pad up for pitch-perfect battle Down Under

Can the BGT claim the title of cricket's 'premier rivalry'? Jury's still out

VISHAL MENON
New Delhi, 20 November

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

"Hello, and welcome to all our international viewers to the WACA Ground in Perth..."

For many, the understated, mellow voice of Richie Benaud served as a window into a distant land where cricket was loud, aggressive, and played in colossal amphitheatre-like stadia.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

It's little wonder Cricket Australia is championing this series as cricket's most storied rivalry.

Not everyone is convinced.

"The very idea of labelling anything as a premier series is bad and toxic.

Financially, we are so dominant that more teams want to play us," Mukul Kesavan, historian and author of Men in White, told *Business Standard*.

"But we were just beaten 3-0 by New Zealand at home. For us to call the Australia series the premier one is a bit smug — especially when Sri Lanka defeated New Zealand 2-0 and then absolutely smashed us. For us to fly to Australia and call this the asli muqabala is laughable," Kesavan elaborated.

There was a time when England and Australia dominated world cricket, and the sport's priorities revolved around them.

Since the turn of the century, India has joined this elite club, now called cricket's 'Big Three'. Together, these three nations generate more than 80 per cent of cricket's revenues and dominate broadcasting deals.

"What's happening now is a similar kind of narcissism. Indian cricket was once weak, but now we are the economic ecology of cricket — we sustain the entire ecosystem," Kesavan explained.

He cautioned against the peculiar ghamand (arrogance) where any series India plays, or any rival India nominates, is deemed cricket's 'greatest rivalry'.

Nevertheless, Kesavan conceded that the Border-Gavaskar Trophy has all the ingredients for a terrific series.

"It's an A-list series... I'm looking forward to it. It's always a pleasure to watch cricket on Australian grounds," he added.

Benaud might have summed it up in his inimitable style if he were still around: "Buckle up, folks. We're in for a marvellous ride."

NOTICE

Notice is hereby given that anExtra Ordinary General Meeting (EGM) of the Company will be held on **Saturday, December 14, 2024 at 11:00 A.M** at the registered office of the Company at Flat No. 101, Alekhaya Homes Temple Tree, Raghavendra Colony Kondapur, Hyderabad - 500084, Telangana. Notice of the said EGM, E-Voting instructions etc., have been sent to the members of the Company electronically whose e-mail IDs are registered with the Depositories and in physical mode to all the other members at their registered addresses. The dispatch / e-mail transmission of Notice of EGM has been completed on November 20, 2024. The copies of aforesaid notice along with other documents as mentioned in the notice are available on the website of the Company **(https://tanvifoods.com/)** and are available for inspection at the registered office of the Company during the office hours.

Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of Companies (Management and Administration) Rules, 2014, as amended, and Regulation 44 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, the Company is offering e-voting facility to its members in respect of all the items of business to be transacted at this EGM. The members may transact the said business through voting by electronic means. The Company has engaged Central Depository Services (India) Limited as the authorized agency to provide the e-voting facility.

The remote e-voting facility will commence on Wednesday, December 11, 2024 at 09:00 A.M and close on Friday, December 13, 2024at 05:00 P.M (both days inclusive) and shall not be available thereafter. The remote e-voting shall not be allowed after the said date and time and the e-voting module shall be disabled for voting thereafter. During this period, only a person whose name is recorded in the Register of members or Register of beneficial owners maintained by the Depositories as on the cut-off date, i.e.,Saturday,December07, 2024, shall be entitled to avail the facility of remote e-voting / voting in the EGM. The voting rights of the members for e-voting and for physical voting at the meeting shall be in proportionate to their shareholding in the paid up equity share capital of the Company as on the said cut-off date.

Any person who acquires shares of the Company and becomes its member after the dispatch of the notice and also holds shares as on cut-off date may cast his vote by remote e-voting / voting in the EGM. Further, if already registered with CDSL for remote e-voting then you can use existing User ID and Password for casting your vote. You may also approach the Company for required assistance in connection with generation of User ID / Password in order to exercise your right to vote.

Facility of voting through Physical Ballot is being made available at the EGM. Members attending the meeting, who have not already cast their vote by remote e-voting may exercise their right at the meeting. A member who has cast his vote by remote e-voting may participate in the EGM even after exercising his right to vote through remote e-voting but shall not be allowed to vote in the meeting.

The notice of the EGM along with e-voting instructions, are available on the Company's website **https://tanvifoods.com/**and also on the website of CDSL, **www.cdslindia.com.**

Members are requested to refer e-voting instructions contained in the Notice of the extra ordinary general meeting of the Company, regarding the process and manner for e-voting by electronic means.

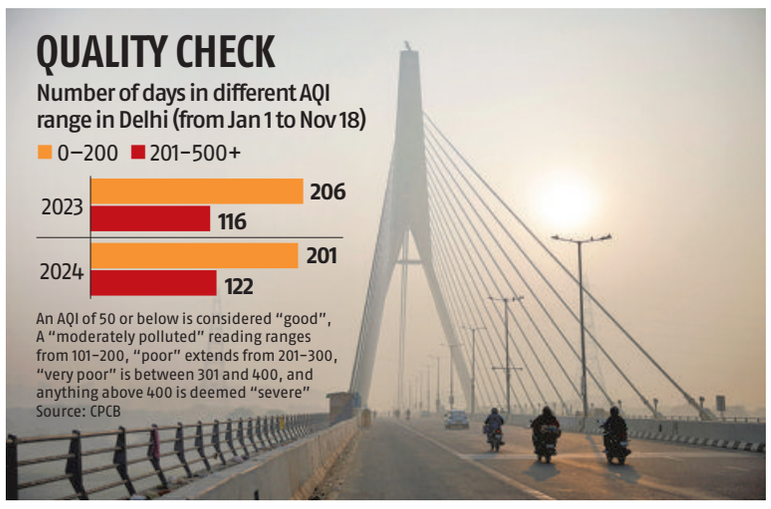

For any query or grievance, members may contact CDSL at Toll free No. 18002005533 or write an e-mail to **helpdesk.evoting@india.com** or contact the Company Secretary & Compliance Officerby writing an email to **investors@tanvifoods.com**

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

It's little wonder Cricket Australia is championing this series as cricket's most storied rivalry.

Not everyone is convinced.

"The very idea of labelling anything as a premier series is bad and toxic.

Financially, we are so dominant that more teams want to play us," Mukul Kesavan, historian and author of Men in White, told *Business Standard*.

"But we were just beaten 3-0 by New Zealand at home. For us to call the Australia series the premier one is a bit smug — especially when Sri Lanka defeated New Zealand 2-0 and then absolutely smashed us. For us to fly to Australia and call this the asli muqabala is laughable," Kesavan elaborated.

There was a time when England and Australia dominated world cricket, and the sport's priorities revolved around them.

Since the turn of the century, India has joined this elite club, now called cricket's 'Big Three'. Together, these three nations generate more than 80 per cent of cricket's revenues and dominate broadcasting deals.

"What's happening now is a similar kind of narcissism. Indian cricket was once weak, but now we are the economic ecology of cricket — we sustain the entire ecosystem," Kesavan explained.

He cautioned against the peculiar ghamand (arrogance) where any series India plays, or any rival India nominates, is deemed cricket's 'greatest rivalry'.

Nevertheless, Kesavan conceded that the Border-Gavaskar Trophy has all the ingredients for a terrific series.

"It's an A-list series... I'm looking forward to it. It's always a pleasure to watch cricket on Australian grounds," he added.

Benaud might have summed it up in his inimitable style if he were still around: "Buckle up, folks. We're in for a marvellous ride."

At 122, harmful AQI days in 2024 six more than last year

Number of days with air AQI between 0 and 200 in Delhi has stood at 201 this year so far

NITIN KUMAR
New Delhi, 20 November

The number of days with harmful air quality in Delhi has risen this year, surpassing figures from the previous years. From January 1 to November 18, there were 122 days when the air quality index (AQI) exceeded 201, compared to 116 days during the same period in 2023.

In contrast, the number of days when the AQI ranged between 0 and 200 stood at 201 this year, slightly lower than 206 days recorded last year.

According to the Central Pollution Control Board (CPCB), AQI levels between 0 and 200 are divided into three categories — good (0–50), satisfactory (51–100), and moderate (101–200).

While these levels are less harmful, their health impacts vary, ranging from minimal discomfort for sensitive individuals to moderate breathing difficulties for people with lungs, asthma, or heart conditions.

However, air quality in the poor (201–300), very poor (301–400), and severe (above 400) categories pose a significant threat to health.

Poor air quality leads to breathing discomfort for individuals during prolonged exposure, while very poor conditions can cause respiratory illnesses.

Severe levels not only affect healthy people but also severely impact those with pre-existing health issues.

The rising number of days with harmful AQI levels highlights the growing challenge of controlling air pollution. India now leads the world in the number of cities listed among the top 100 most polluted globally, surpassing China by a significant margin.

According to a recent S&P Global Mobility web presentation, 39 Indian cities feature in the list, compared to 30 cities in China, its closest competitor.

According to data from the CPCB, Delhi remains one of the most polluted cities in India. On November 18, the city recorded an average AQI of 494, the highest in the country.

Most monitoring stations in Delhi reported an AQI of 500, the upper limit of India's AQI scale.

However, the international air quality monitoring app IQAir recorded Delhi's AQI at a staggering 1,600 on the same day. The discrepancy arises from differing standards for measuring air quality across countries.

In India, the permissible limit for PM2.5 concentration is 60 micrograms per cubic metre.

Countries adhering to World Health Organization (WHO) guidelines have much stricter limits of five or 10 micrograms per cubic metre.

India's AQI scale is capped at 500, which serves as a critical threshold indicating severe pollution levels.

An AQI beyond this cap signals hazardous conditions and highlights the urgency of addressing the capital's worsening air quality.

Govt asks airlines to ensure ample staff at check-in points

DEEPAK PATEL
New Delhi, 20 November

Airlines must ensure that all check-in counters at the Delhi airport are fully staffed to minimise passenger inconvenience as smog has started affecting the flight operations, Aviation Minister Rammohan Naidu directed on Wednesday.

The minister gave this direction during a meeting with representatives of major airlines, Delhi International Airport Limited (DIAL), officials of the Ministry of Civil Aviation, Directorate General of Civil Aviation (DGCA) and the Bureau of Civil Aviation Security (BCAS).

The meeting was called on Wednesday to assess readiness of the aviation ecosystem amid the "early onset of fog/smog" in Delhi.

More than 370 flights, including departures as well as arrivals, were delayed at the Delhi airport on November 18 due to dense fog and pollution.

"Reviewing the readiness of the airport operation control room, the minister stressed the importance of real-time coordination between ATC (air traffic controller), airlines, ground handlers and airport operators to maintain seamless operation," the ministry said in a statement.

During the meeting, all the airlines confirmed adherence with the DGCA guidelines which asks them to deploy CAT-III compliant aircraft and pilots in Delhi and other fog-affected airports. The CAT-III instrument landing system (ILS) at airports enables safe aircraft landings in extremely low visibility, with CAT-III A allowing landings at a minimum visibility of 200 meters and CAT-III B at 50 meters.

"Three out of four runways at the Delhi airport have activated CAT-III ILS systems. In addition, the Delhi Airport operator has been advised to install LED screens at prominent locations to provide real-time updates on visibility conditions and to increase the availability of 'follow me' vehicles to guide aircraft during low visibility situations," the ministry mentioned.

India ranks 10th on top climate performers list

India ranked 10th on a list of over 60 countries assessed for efforts to fight climate change despite dropping two spots compared to last ago, thanks to its low per capita emissions and rapid deployment of renewables, a report said on Wednesday. The Climate Change Performance Index report leaves the first three places empty followed by Denmark (fourth place) and the Netherlands while the largest two emitters, China and the US, remain very low at 55th and 57th place, respectively. The 63 countries, along with the European Union, assessed in the CCPI are responsible for 90 per cent of global emissions. **PTI**

Now, access air quality info on Google Maps

Users across India can now access hyperlocal air quality information on Google Maps, the tech titan said on Wednesday announcing Air View+, an AI-powered and ecosystem-based solution. Google said Air View+ enables valuable air quality insights to government agencies responsible for environmental monitoring, by offering citizens hyperlocal air quality information on Google Maps.As India continues its "incredible growth momentum", backed by tech innovation and demographic advantage, it is crucial to also mitigate risks which could slow it down, Google said. **PTI**

Govt prepares logistics plan for metros to tackle traffic, pollution

SHREYA NANDI
New Delhi, 20 November

The Centre has prepared a 'City Logistics Plan' for metros such as Delhi and Bengaluru for efficient freight and logistics movement within the city, a senior official of the Department for Promotion of Industry and Internal Trade (DPIIT) said on Wednesday.

Efficient freight and logistics movement in turn will decongest large cities, reduce pollution, logistics costs, while improving the overall quality of life in cities, DPIIT Additional Secretary Rajeev Singh Thakur said.

Thakur said that the plan will help advance the government's agenda towards Ease of Doing Business (EoDB) and fulfil India's aim of achieving carbon NetZero by 2070.

LOGISTICS LAYOUT

Efficient freight and logistics movement will:

- Decongest large cities
- Reduce pollution
- Reduce logistics costs
- Improve the overall quality of life

The guideline provides a framework and methodological approach from the perspective of a city to tailor its vision, objectives and indicators to specific local needs and city characteristics, collect relevant data and analyse its freight distribution issues and choose appropriate infrastructure, policy measures and services in collaboration with other relevant actors and stakeholders.

This guideline is considered a living document that will continue to evolve through the incorporation of feedback and input from stakeholders and DPIIT will extend its support to the willing state and union territories to prepare city logistics plans.

In 2022, the government launched the National Logistics Policy which includes the support for the development of city-level logistics plans. This City Logistics Plan initiative aims to reduce the logistics costs and improve efficiency and sustainability of urban freight transport.

The official further said that several countries have adopted city logistics plans to improve the efficiency and sustainability of urban freight transport. For instance, Japan has been a pioneer in city logistics, implementing consolidation centres and other innovative solutions to manage freight effectively in densely populated urban areas. Many European countries, including Germany, France and Netherlands have developed comprehensive city logistics plans.

XIAOMI LAUNCHES ULTRA AFFORDABLE 5G SMARTPHONE

Xiaomi has launched the Redmi A4 5G in India, priced at ₹8,499 onwards (inclusive of offers). The smartphone features a 6.88-inch HD+ display of a 120Hz refresh rate, a 50MP rear camera, a 5MP front camera, and a 5,160mAh battery with 18W charging. Powered by the Qualcomm Snapdragon 4s Gen 2 processor, the smartphone is among the ultra-affordable 5G smartphones available in India. It will be available from November 27.

Google releases 1st developer preview of Android 16

Google has rolled out the first Developer Preview of Android 16 for Pixel 6 and newer models. Key features include an updated photo picker, Health Records integration, Notification Cooldown, and Audio Sharing for multiple Bluetooth headphones. The update also brings new privacy features and UI enhancements.

Asus announces ROG Phone 9 series

Asus has announced the ROG Phone 9 series, featuring the Qualcomm Snapdragon 8 Elite chip. The series includes the ROG Phone 9 and Pro models, both with a 6.78-inch Amoled display of up to 185Hz refresh rate and up to 24GB RAM. The Pro model adds a 32MP telephoto and 13MP ultra-wide camera, while both have a 50MP primary camera with a 6-axis gimbal stabilisation technology. The AniMe Vision display on the back features customisable LEDs. The phones are expected to launch in India soon.

Cricket's heavyweights pad up for pitch-perfect battle Down Under

Can the BGT claim the title of cricket's 'premier rivalry'? Jury's still out

VISHAL MENON
New Delhi, 20 November

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

"Hello, and welcome to all our international viewers to the WACA Ground in Perth..."

For many, the understated, mellow voice of Richie Benaud served as a window into a distant land where cricket was loud, aggressive, and played in colossal amphitheatre-like stadia.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

At 122, harmful AQI days in 2024 six more than last year

Number of days with air AQI between 0 and 200 in Delhi has stood at 201 this year so far

NITIN KUMAR
New Delhi, 20 November

The number of days with harmful air quality in Delhi has risen this year, surpassing figures from the previous years. From January 1 to November 18, there were 122 days when the air quality index (AQI) exceeded 201, compared to 116 days during the same period in 2023.

In contrast, the number of days when the AQI ranged between 0 and 200 stood at 201 this year, slightly lower than 206 days recorded last year.

According to the Central Pollution Control Board (CPCB), AQI levels between 0 and 200 are divided into three categories — good (0–50), satisfactory (51–100), and moderate (101–200).

While these levels are less harmful, their health impacts vary, ranging from minimal discomfort for sensitive individuals to moderate breathing difficulties for people with lungs, asthma, or heart conditions.

However, air quality in the poor (201–300), very poor (301–400), and severe (above 400) categories pose a significant threat to health.

Poor air quality leads to breathing discomfort for individuals during prolonged exposure, while very poor conditions can cause respiratory illnesses.

Severe levels not only affect healthy people but also severely impact those with pre-existing health issues.

The rising number of days with harmful AQI levels highlights the growing challenge of controlling air pollution. India now leads the world in the number of cities listed among the top 100 most polluted globally, surpassing China by a significant margin.

According to a recent S&P Global Mobility web presentation, 39 Indian cities feature in the list, compared to 30 cities in China, its closest competitor.

According to data from the CPCB, Delhi remains one of the most polluted cities in India. On November 18, the city recorded an average AQI of 494, the highest in the country.

Most monitoring stations in Delhi reported an AQI of 500, the upper limit of India's AQI scale.

However, the international air quality monitoring app IQAir recorded Delhi's AQI at a staggering 1,600 on the same day. The discrepancy arises from differing standards for measuring air quality across countries.

In India, the permissible limit for PM2.5 concentration is 60 micrograms per cubic metre.

Countries adhering to World Health Organization (WHO) guidelines have much stricter limits of five or 10 micrograms per cubic metre.

India's AQI scale is capped at 500, which serves as a critical threshold indicating severe pollution levels.

An AQI beyond this cap signals hazardous conditions and highlights the urgency of addressing the capital's worsening air quality.

Govt asks airlines to ensure ample staff at check-in points

DEEPAK PATEL
New Delhi, 20 November

Airlines must ensure that all check-in counters at the Delhi airport are fully staffed to minimise passenger inconvenience as smog has started affecting the flight operations, Aviation Minister Rammohan Naidu directed on Wednesday.

The minister gave this direction during a meeting with representatives of major airlines, Delhi International Airport Limited (DIAL), officials of the Ministry of Civil Aviation, Directorate General of Civil Aviation (DGCA) and the Bureau of Civil Aviation Security (BCAS).

The meeting was called on Wednesday to assess readiness of the aviation ecosystem amid the "early onset of fog/smog" in Delhi.

More than 370 flights, including departures as well as arrivals, were delayed at the Delhi airport on November 18 due to dense fog and pollution.

"Reviewing the readiness of the airport operation control room, the minister stressed the importance of real-time coordination between ATC (air traffic controller), airlines, ground handlers and airport operators to maintain seamless operation," the ministry said in a statement.

During the meeting, all the airlines confirmed adherence with the DGCA guidelines which asks them to deploy CAT-III compliant aircraft and pilots in Delhi and other fog-affected airports. The CAT-III instrument landing system (ILS) at airports enables safe aircraft landings in extremely low visibility, with CAT-III A allowing landings at a minimum visibility of 200 meters and CAT-III B at 50 meters.

"Three out of four runways at the Delhi airport have activated CAT-III ILS systems. In addition, the Delhi Airport operator has been advised to install LED screens at prominent locations to provide real-time updates on visibility conditions and to increase the availability of 'follow me' vehicles to guide aircraft during low visibility situations," the ministry mentioned.

India ranks 10th on top climate performers list

India ranked 10th on a list of over 60 countries assessed for efforts to fight climate change despite dropping two spots compared to last ago, thanks to its low per capita emissions and rapid deployment of renewables, a report said on Wednesday. The Climate Change Performance Index report leaves the first three places empty followed by Denmark (fourth place) and the Netherlands while the largest two emitters, China and the US, remain very low at 55th and 57th place, respectively. The 63 countries, along with the European Union, assessed in the CCPI are responsible for 90 per cent of global emissions. **PTI**

Now, access air quality info on Google Maps

Users across India can now access hyperlocal air quality information on Google Maps, the tech titan said on Wednesday announcing Air View+, an AI-powered and ecosystem-based solution. Google said Air View+ enables valuable air quality insights to government agencies responsible for environmental monitoring, by offering citizens hyperlocal air quality information on Google Maps.As India continues its "incredible growth momentum", backed by tech innovation and demographic advantage, it is crucial to also mitigate risks which could slow it down, Google said. **PTI**

Govt prepares logistics plan for metros to tackle traffic, pollution

SHREYA NANDI
New Delhi, 20 November

The Centre has prepared a 'City Logistics Plan' for metros such as Delhi and Bengaluru for efficient freight and logistics movement within the city, a senior official of the Department for Promotion of Industry and Internal Trade (DPIIT) said on Wednesday.

Efficient freight and logistics movement in turn will decongest large cities, reduce pollution, logistics costs, while improving the overall quality of life in cities, DPIIT Additional Secretary Rajeev Singh Thakur said.

Thakur said that the plan will help advance the government's agenda towards Ease of Doing Business (EoDB) and fulfil India's aim of achieving carbon NetZero by 2070.

LOGISTICS LAYOUT

Efficient freight and logistics movement will:

- Decongest large cities
- Reduce pollution
- Reduce logistics costs
- Improve the overall quality of life

The guideline provides a framework and methodological approach from the perspective of a city to tailor its vision, objectives and indicators to specific local needs and city characteristics, collect relevant data and analyse its freight distribution issues and choose appropriate infrastructure, policy measures and services in collaboration with other relevant actors and stakeholders.

This guideline is considered a living document that will continue to evolve through the incorporation of feedback and input from stakeholders and DPIIT will extend its support to the willing state and union territories to prepare city logistics plans.

In 2022, the government launched the National Logistics Policy which includes the support for the development of city-level logistics plans. This City Logistics Plan initiative aims to reduce the logistics costs and improve efficiency and sustainability of urban freight transport.

The official further said that several countries have adopted city logistics plans to improve the efficiency and sustainability of urban freight transport. For instance, Japan has been a pioneer in city logistics, implementing consolidation centres and other innovative solutions to manage freight effectively in densely populated urban areas. Many European countries, including Germany, France and Netherlands have developed comprehensive city logistics plans.

XIAOMI LAUNCHES ULTRA AFFORDABLE 5G SMARTPHONE

Xiaomi has launched the Redmi A4 5G in India, priced at ₹8,499 onwards (inclusive of offers). The smartphone features a 6.88-inch HD+ display of a 120Hz refresh rate, a 50MP rear camera, a 5MP front camera, and a 5,160mAh battery with 18W charging. Powered by the Qualcomm Snapdragon 4s Gen 2 processor, the smartphone is among the ultra-affordable 5G smartphones available in India. It will be available from November 27.

Google releases 1st developer preview of Android 16

Google has rolled out the first Developer Preview of Android 16 for Pixel 6 and newer models. Key features include an updated photo picker, Health Records integration, Notification Cooldown, and Audio Sharing for multiple Bluetooth headphones. The update also brings new privacy features and UI enhancements.

Asus announces ROG Phone 9 series

Asus has announced the ROG Phone 9 series, featuring the Qualcomm Snapdragon 8 Elite chip. The series includes the ROG Phone 9 and Pro models, both with a 6.78-inch Amoled display of up to 185Hz refresh rate and up to 24GB RAM. The Pro model adds a 32MP telephoto and 13MP ultra-wide camera, while both have a 50MP primary camera with a 6-axis gimbal stabilisation technology. The AniMe Vision display on the back features customisable LEDs. The phones are expected to launch in India soon.

Cricket's heavyweights pad up for pitch-perfect battle Down Under

Can the BGT claim the title of cricket's 'premier rivalry'? Jury's still out

VISHAL MENON
New Delhi, 20 November

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

"Hello, and welcome to all our international viewers to the WACA Ground in Perth..."

For many, the understated, mellow voice of Richie Benaud served as a window into a distant land where cricket was loud, aggressive, and played in colossal amphitheatre-like stadia.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

It's little wonder Cricket Australia is championing this series as cricket's most storied rivalry.

Not everyone is convinced.

"The very idea of labelling anything as a premier series is bad and toxic.

Financially, we are so dominant that more teams want to play us," Mukul Kesavan, historian and author of Men in White, told *Business Standard*.

"But we were just beaten 3-0 by New Zealand at home. For us to call the Australia series the premier one is a bit smug — especially when Sri Lanka defeated New Zealand 2-0 and then absolutely smashed us. For us to fly to Australia and call this the asli muqabala is laughable," Kesavan elaborated.

There was a time when England and Australia dominated world cricket, and the sport's priorities revolved around them.

Since the turn of the century, India has joined this elite club, now called cricket's 'Big Three'. Together, these three nations generate more than 80 per cent of cricket's revenues and dominate broadcasting deals.

"What's happening now is a similar kind of narcissism. Indian cricket was once weak, but now we are the economic ecology of cricket — we sustain the entire ecosystem," Kesavan explained.

He cautioned against the peculiar ghamand (arrogance) where any series India plays, or any rival India nominates, is deemed cricket's 'greatest rivalry'.

Nevertheless, Kesavan conceded that the Border-Gavaskar Trophy has all the ingredients for a terrific series.

"It's an A-list series... I'm looking forward to it. It's always a pleasure to watch cricket on Australian grounds," he added.

Benaud might have summed it up in his inimitable style if he were still around: "Buckle up, folks. We're in for a marvellous ride."

NOTICE

Notice is hereby given that anExtra Ordinary General Meeting (EGM) of the Company will be held on **Saturday, December 14, 2024 at 11:00 A.M** at the registered office of the Company at Flat No. 101, Alekhaya Homes Temple Tree, Raghavendra Colony Kondapur, Hyderabad - 500084, Telangana. Notice of the said EGM, E-Voting instructions etc., have been sent to the members of the Company electronically whose e-mail IDs are registered with the Depositories and in physical mode to all the other members at their registered addresses. The dispatch / e-mail transmission of Notice of EGM has been completed on November 20, 2024. The copies of aforesaid notice along with other documents as mentioned in the notice are available on the website of the Company **(https://tanvifoods.com/)** and are available for inspection at the registered office of the Company during the office hours.

Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of Companies (Management and Administration) Rules, 2014, as amended, and Regulation 44 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, the Company is offering e-voting facility to its members in respect of all the items of business to be transacted at this EGM. The members may transact the said business through voting by electronic means. The Company has engaged Central Depository Services (India) Limited as the authorized agency to provide the e-voting facility.

The remote e-voting facility will commence on Wednesday, December 11, 2024 at 09:00 A.M and close on Friday, December 13, 2024at 05:00 P.M (both days inclusive) and shall not be available thereafter. The remote e-voting shall not be allowed after the said date and time and the e-voting module shall be disabled for voting thereafter. During this period, only a person whose name is recorded in the Register of members or Register of beneficial owners maintained by the Depositories as on the cut-off date, i.e.,Saturday,December07, 2024, shall be entitled to avail the facility of remote e-voting / voting in the EGM. The voting rights of the members for e-voting and for physical voting at the meeting shall be in proportionate to their shareholding in the paid up equity share capital of the Company as on the said cut-off date.

Any person who acquires shares of the Company and becomes its member after the dispatch of the notice and also holds shares as on cut-off date may cast his vote by remote e-voting / voting in the EGM. Further, if already registered with CDSL for remote e-voting then you can use existing User ID and Password for casting your vote. You may also approach the Company for required assistance in connection with generation of User ID / Password in order to exercise your right to vote.

Facility of voting through Physical Ballot is being made available at the EGM. Members attending the meeting, who have not already cast their vote by remote e-voting may exercise their right at the meeting. A member who has cast his vote by remote e-voting may participate in the EGM even after exercising his right to vote through remote e-voting but shall not be allowed to vote in the meeting.

The notice of the EGM along with e-voting instructions, are available on the Company's website **https://tanvifoods.com/**and also on the website of CDSL, **www.cdslindia.com.**

Members are requested to refer e-voting instructions contained in the Notice of the extra ordinary general meeting of the Company, regarding the process and manner for e-voting by electronic means.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

It's little wonder Cricket Australia is championing this series as cricket's most storied rivalry.

Not everyone is convinced.

"The very idea of labelling anything as a premier series is bad and toxic.

Financially, we are so dominant that more teams want to play us," Mukul Kesavan, historian and author of Men in White, told *Business Standard*.

"But we were just beaten 3-0 by New Zealand at home. For us to call the Australia series the premier one is a bit smug — especially when Sri Lanka defeated New Zealand 2-0 and then absolutely smashed us. For us to fly to Australia and call this the asli muqabala is laughable," Kesavan elaborated.

There was a time when England and Australia dominated world cricket, and the sport's priorities revolved around them.

Since the turn of the century, India has joined this elite club, now called cricket's 'Big Three'. Together, these three nations generate more than 80 per cent of cricket's revenues and dominate broadcasting deals.

"What's happening now is a similar kind of narcissism. Indian cricket was once weak, but now we are the economic ecology of cricket — we sustain the entire ecosystem," Kesavan explained.

He cautioned against the peculiar ghamand (arrogance) where any series India plays, or any rival India nominates, is deemed cricket's 'greatest rivalry'.

Nevertheless, Kesavan conceded that the Border-Gavaskar Trophy has all the ingredients for a terrific series.

"It's an A-list series... I'm looking forward to it. It's always a pleasure to watch cricket on Australian grounds," he added.

Benaud might have summed it up in his inimitable style if he were still around: "Buckle up, folks. We're in for a marvellous ride."

NOTICE

Notice is hereby given that anExtra Ordinary General Meeting (EGM) of the Company will be held on **Saturday, December 14, 2024 at 11:00 A.M** at the registered office of the Company at Flat No. 101, Alekhaya Homes Temple Tree, Raghavendra Colony Kondapur, Hyderabad - 500084, Telangana. Notice of the said EGM, E-Voting instructions etc., have been sent to the members of the Company electronically whose e-mail IDs are registered with the Depositories and in physical mode to all the other members at their registered addresses. The dispatch / e-mail transmission of Notice of EGM has been completed on November 20, 2024. The copies of aforesaid notice along with other documents as mentioned in the notice are available on the website of the Company **(https://tanvifoods.com/)** and are available for inspection at the registered office of the Company during the office hours.

Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of Companies (Management and Administration) Rules, 2014, as amended, and Regulation 44 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, the Company is offering e-voting facility to its members in respect of all the items of business to be transacted at this EGM. The members may transact the said business through voting by electronic means. The Company has engaged Central Depository Services (India) Limited as the authorized agency to provide the e-voting facility.

The remote e-voting facility will commence on Wednesday, December 11, 2024 at 09:00 A.M and close on Friday, December 13, 2024at 05:00 P.M (both days inclusive) and shall not be available thereafter. The remote e-voting shall not be allowed after the said date and time and the e-voting module shall be disabled for voting thereafter. During this period, only a person whose name is recorded in the Register of members or Register of beneficial owners maintained by the Depositories as on the cut-off date, i.e.,Saturday,December07, 2024, shall be entitled to avail the facility of remote e-voting / voting in the EGM. The voting rights of the members for e-voting and for physical voting at the meeting shall be in proportionate to their shareholding in the paid up equity share capital of the Company as on the said cut-off date.

Any person who acquires shares of the Company and becomes its member after the dispatch of the notice and also holds shares as on cut-off date may cast his vote by remote e-voting / voting in the EGM. Further, if already registered with CDSL for remote e-voting then you can use existing User ID and Password for casting your vote. You may also approach the Company for required assistance in connection with generation of User ID / Password in order to exercise your right to vote.

Facility of voting through Physical Ballot is being made available at the EGM. Members attending the meeting, who have not already cast their vote by remote e-voting may exercise their right at the meeting. A member who has cast his vote by remote e-voting may participate in the EGM even after exercising his right to vote through remote e-voting but shall not be allowed to vote in the meeting.

The notice of the EGM along with e-voting instructions, are available on the Company's website **https://tanvifoods.com/**and also on the website of CDSL, **www.cdslindia.com.**

Members are requested to refer e-voting instructions contained in the Notice of the extra ordinary general meeting of the Company, regarding the process and manner for e-voting by electronic means.

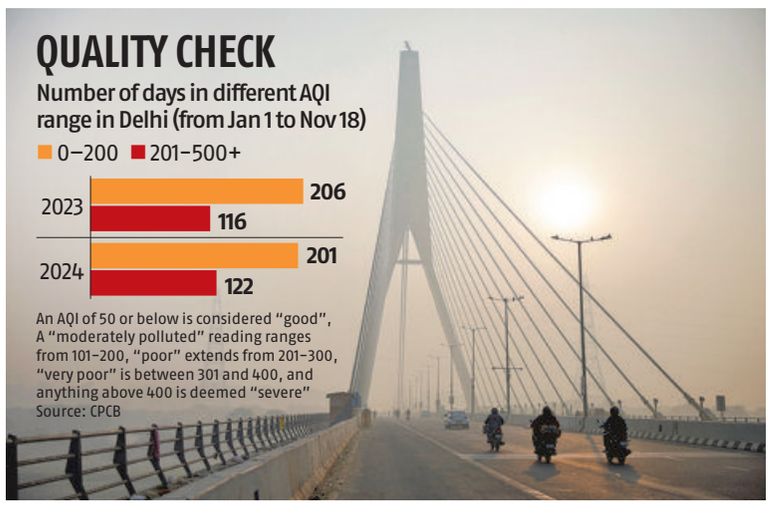

For any query or grievance, members may contact CDSL at Toll free No. 18002005533 or write an e-mail to **helpdesk.evoting@india.com** or contact the Company Secretary & Compliance Officerby writing an email to **investors@tanvifoods.com**

At 122, harmful AQI days in 2024 six more than last year

Number of days with air AQI between 0 and 200 in Delhi has stood at 201 this year so far

NITIN KUMAR
New Delhi, 20 November

The number of days with harmful air quality in Delhi has risen this year, surpassing figures from the previous years. From January 1 to November 18, there were 122 days when the air quality index (AQI) exceeded 201, compared to 116 days during the same period in 2023.

In contrast, the number of days when the AQI ranged between 0 and 200 stood at 201 this year, slightly lower than 206 days recorded last year.

According to the Central Pollution Control Board (CPCB), AQI levels between 0 and 200 are divided into three categories — good (0–50), satisfactory (51–100), and moderate (101–200).

While these levels are less harmful, their health impacts vary, ranging from minimal discomfort for sensitive individuals to moderate breathing difficulties for people with lungs, asthma, or heart conditions.

However, air quality in the poor (201–300), very poor (301–400), and severe (above 400) categories pose a significant threat to health.

Poor air quality leads to breathing discomfort for individuals during prolonged exposure, while very poor conditions can cause respiratory illnesses.

Severe levels not only affect healthy people but also severely impact those with pre-existing health issues.

The rising number of days with harmful AQI levels highlights the growing challenge of controlling air pollution. India now leads the world in the number of cities listed among the top 100 most polluted globally, surpassing China by a significant margin.

According to a recent S&P Global Mobility web presentation, 39 Indian cities feature in the list, compared to 30 cities in China, its closest competitor.

According to data from the CPCB, Delhi remains one of the most polluted cities in India. On November 18, the city recorded an average AQI of 494, the highest in the country.

Most monitoring stations in Delhi reported an AQI of 500, the upper limit of India's AQI scale.

However, the international air quality monitoring app IQAir recorded Delhi's AQI at a staggering 1,600 on the same day. The discrepancy arises from differing standards for measuring air quality across countries.

In India, the permissible limit for PM2.5 concentration is 60 micrograms per cubic metre.

Countries adhering to World Health Organization (WHO) guidelines have much stricter limits of five or 10 micrograms per cubic metre.

India's AQI scale is capped at 500, which serves as a critical threshold indicating severe pollution levels.

An AQI beyond this cap signals hazardous conditions and highlights the urgency of addressing the capital's worsening air quality.

Govt asks airlines to ensure ample staff at check-in points

DEEPAK PATEL
New Delhi, 20 November

Airlines must ensure that all check-in counters at the Delhi airport are fully staffed to minimise passenger inconvenience as smog has started affecting the flight operations, Aviation Minister Rammohan Naidu directed on Wednesday.

The minister gave this direction during a meeting with representatives of major airlines, Delhi International Airport Limited (DIAL), officials of the Ministry of Civil Aviation, Directorate General of Civil Aviation (DGCA) and the Bureau of Civil Aviation Security (BCAS).

The meeting was called on Wednesday to assess readiness of the aviation ecosystem amid the "early onset of fog/smog" in Delhi.

More than 370 flights, including departures as well as arrivals, were delayed at the Delhi airport on November 18 due to dense fog and pollution.

"Reviewing the readiness of the airport operation control room, the minister stressed the importance of real-time coordination between ATC (air traffic controller), airlines, ground handlers and airport operators to maintain seamless operation," the ministry said in a statement.

During the meeting, all the airlines confirmed adherence with the DGCA guidelines which asks them to deploy CAT-III compliant aircraft and pilots in Delhi and other fog-affected airports. The CAT-III instrument landing system (ILS) at airports enables safe aircraft landings in extremely low visibility, with CAT-III A allowing landings at a minimum visibility of 200 meters and CAT-III B at 50 meters.

"Three out of four runways at the Delhi airport have activated CAT-III ILS systems. In addition, the Delhi Airport operator has been advised to install LED screens at prominent locations to provide real-time updates on visibility conditions and to increase the availability of 'follow me' vehicles to guide aircraft during low visibility situations," the ministry mentioned.

India ranks 10th on top climate performers list

India ranked 10th on a list of over 60 countries assessed for efforts to fight climate change despite dropping two spots compared to last ago, thanks to its low per capita emissions and rapid deployment of renewables, a report said on Wednesday. The Climate Change Performance Index report leaves the first three places empty followed by Denmark (fourth place) and the Netherlands while the largest two emitters, China and the US, remain very low at 55th and 57th place, respectively. The 63 countries, along with the European Union, assessed in the CCPI are responsible for 90 per cent of global emissions. **PTI**

Now, access air quality info on Google Maps

Users across India can now access hyperlocal air quality information on Google Maps, the tech titan said on Wednesday announcing Air View+, an AI-powered and ecosystem-based solution. Google said Air View+ enables valuable air quality insights to government agencies responsible for environmental monitoring, by offering citizens hyperlocal air quality information on Google Maps.As India continues its "incredible growth momentum", backed by tech innovation and demographic advantage, it is crucial to also mitigate risks which could slow it down, Google said. **PTI**

Govt prepares logistics plan for metros to tackle traffic, pollution

SHREYA NANDI
New Delhi, 20 November

The Centre has prepared a 'City Logistics Plan' for metros such as Delhi and Bengaluru for efficient freight and logistics movement within the city, a senior official of the Department for Promotion of Industry and Internal Trade (DPIIT) said on Wednesday.

Efficient freight and logistics movement in turn will decongest large cities, reduce pollution, logistics costs, while improving the overall quality of life in cities, DPIIT Additional Secretary Rajeev Singh Thakur said.

Thakur said that the plan will help advance the government's agenda towards Ease of Doing Business (EoDB) and fulfil India's aim of achieving carbon NetZero by 2070.

LOGISTICS LAYOUT

Efficient freight and logistics movement will:

- Decongest large cities
- Reduce pollution
- Reduce logistics costs
- Improve the overall quality of life

The guideline provides a framework and methodological approach from the perspective of a city to tailor its vision, objectives and indicators to specific local needs and city characteristics, collect relevant data and analyse its freight distribution issues and choose appropriate infrastructure, policy measures and services in collaboration with other relevant actors and stakeholders.

This guideline is considered a living document that will continue to evolve through the incorporation of feedback and input from stakeholders and DPIIT will extend its support to the willing state and union territories to prepare city logistics plans.

In 2022, the government launched the National Logistics Policy which includes the support for the development of city-level logistics plans. This City Logistics Plan initiative aims to reduce the logistics costs and improve efficiency and sustainability of urban freight transport.

The official further said that several countries have adopted city logistics plans to improve the efficiency and sustainability of urban freight transport. For instance, Japan has been a pioneer in city logistics, implementing consolidation centres and other innovative solutions to manage freight effectively in densely populated urban areas. Many European countries, including Germany, France and Netherlands have developed comprehensive city logistics plans.

XIAOMI LAUNCHES ULTRA AFFORDABLE 5G SMARTPHONE

Xiaomi has launched the Redmi A4 5G in India, priced at ₹8,499 onwards (inclusive of offers). The smartphone features a 6.88-inch HD+ display of a 120Hz refresh rate, a 50MP rear camera, a 5MP front camera, and a 5,160mAh battery with 18W charging. Powered by the Qualcomm Snapdragon 4s Gen 2 processor, the smartphone is among the ultra-affordable 5G smartphones available in India. It will be available from November 27.

Google releases 1st developer preview of Android 16

Google has rolled out the first Developer Preview of Android 16 for Pixel 6 and newer models. Key features include an updated photo picker, Health Records integration, Notification Cooldown, and Audio Sharing for multiple Bluetooth headphones. The update also brings new privacy features and UI enhancements.

Asus announces ROG Phone 9 series

Asus has announced the ROG Phone 9 series, featuring the Qualcomm Snapdragon 8 Elite chip. The series includes the ROG Phone 9 and Pro models, both with a 6.78-inch Amoled display of up to 185Hz refresh rate and up to 24GB RAM. The Pro model adds a 32MP telephoto and 13MP ultra-wide camera, while both have a 50MP primary camera with a 6-axis gimbal stabilisation technology. The AniMe Vision display on the back features customisable LEDs. The phones are expected to launch in India soon.

Cricket's heavyweights pad up for pitch-perfect battle Down Under

Can the BGT claim the title of cricket's 'premier rivalry'? Jury's still out

VISHAL MENON
New Delhi, 20 November

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

"Hello, and welcome to all our international viewers to the WACA Ground in Perth..."

For many, the understated, mellow voice of Richie Benaud served as a window into a distant land where cricket was loud, aggressive, and played in colossal amphitheatre-like stadia.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

At 122, harmful AQI days in 2024 six more than last year

Number of days with air AQI between 0 and 200 in Delhi has stood at 201 this year so far

NITIN KUMAR
New Delhi, 20 November

The number of days with harmful air quality in Delhi has risen this year, surpassing figures from the previous years. From January 1 to November 18, there were 122 days when the air quality index (AQI) exceeded 201, compared to 116 days during the same period in 2023.

In contrast, the number of days when the AQI ranged between 0 and 200 stood at 201 this year, slightly lower than 206 days recorded last year.

According to the Central Pollution Control Board (CPCB), AQI levels between 0 and 200 are divided into three categories — good (0–50), satisfactory (51–100), and moderate (101–200).

While these levels are less harmful, their health impacts vary, ranging from minimal discomfort for sensitive individuals to moderate breathing difficulties for people with lungs, asthma, or heart conditions.

However, air quality in the poor (201–300), very poor (301–400), and severe (above 400) categories pose a significant threat to health.

Poor air quality leads to breathing discomfort for individuals during prolonged exposure, while very poor conditions can cause respiratory illnesses.

Severe levels not only affect healthy people but also severely impact those with pre-existing health issues.

The rising number of days with harmful AQI levels highlights the growing challenge of controlling air pollution. India now leads the world in the number of cities listed among the top 100 most polluted globally, surpassing China by a significant margin.

According to a recent S&P Global Mobility web presentation, 39 Indian cities feature in the list, compared to 30 cities in China, its closest competitor.

According to data from the CPCB, Delhi remains one of the most polluted cities in India. On November 18, the city recorded an average AQI of 494, the highest in the country.

Most monitoring stations in Delhi reported an AQI of 500, the upper limit of India's AQI scale.

However, the international air quality monitoring app IQAir recorded Delhi's AQI at a staggering 1,600 on the same day. The discrepancy arises from differing standards for measuring air quality across countries.

In India, the permissible limit for PM2.5 concentration is 60 micrograms per cubic metre.

Countries adhering to World Health Organization (WHO) guidelines have much stricter limits of five or 10 micrograms per cubic metre.

India's AQI scale is capped at 500, which serves as a critical threshold indicating severe pollution levels.

An AQI beyond this cap signals hazardous conditions and highlights the urgency of addressing the capital's worsening air quality.

Govt asks airlines to ensure ample staff at check-in points

DEEPAK PATEL
New Delhi, 20 November

Airlines must ensure that all check-in counters at the Delhi airport are fully staffed to minimise passenger inconvenience as smog has started affecting the flight operations, Aviation Minister Rammohan Naidu directed on Wednesday.

The minister gave this direction during a meeting with representatives of major airlines, Delhi International Airport Limited (DIAL), officials of the Ministry of Civil Aviation, Directorate General of Civil Aviation (DGCA) and the Bureau of Civil Aviation Security (BCAS).

The meeting was called on Wednesday to assess readiness of the aviation ecosystem amid the "early onset of fog/smog" in Delhi.

More than 370 flights, including departures as well as arrivals, were delayed at the Delhi airport on November 18 due to dense fog and pollution.

"Reviewing the readiness of the airport operation control room, the minister stressed the importance of real-time coordination between ATC (air traffic controller), airlines, ground handlers and airport operators to maintain seamless operation," the ministry said in a statement.

During the meeting, all the airlines confirmed adherence with the DGCA guidelines which asks them to deploy CAT-III compliant aircraft and pilots in Delhi and other fog-affected airports. The CAT-III instrument landing system (ILS) at airports enables safe aircraft landings in extremely low visibility, with CAT-III A allowing landings at a minimum visibility of 200 meters and CAT-III B at 50 meters.

"Three out of four runways at the Delhi airport have activated CAT-III ILS systems. In addition, the Delhi Airport operator has been advised to install LED screens at prominent locations to provide real-time updates on visibility conditions and to increase the availability of 'follow me' vehicles to guide aircraft during low visibility situations," the ministry mentioned.

India ranks 10th on top climate performers list

India ranked 10th on a list of over 60 countries assessed for efforts to fight climate change despite dropping two spots compared to last ago, thanks to its low per capita emissions and rapid deployment of renewables, a report said on Wednesday. The Climate Change Performance Index report leaves the first three places empty followed by Denmark (fourth place) and the Netherlands while the largest two emitters, China and the US, remain very low at 55th and 57th place, respectively. The 63 countries, along with the European Union, assessed in the CCPI are responsible for 90 per cent of global emissions. **PTI**

Now, access air quality info on Google Maps

Users across India can now access hyperlocal air quality information on Google Maps, the tech titan said on Wednesday announcing Air View+, an AI-powered and ecosystem-based solution. Google said Air View+ enables valuable air quality insights to government agencies responsible for environmental monitoring, by offering citizens hyperlocal air quality information on Google Maps.As India continues its "incredible growth momentum", backed by tech innovation and demographic advantage, it is crucial to also mitigate risks which could slow it down, Google said. **PTI**

Govt prepares logistics plan for metros to tackle traffic, pollution

SHREYA NANDI
New Delhi, 20 November

The Centre has prepared a 'City Logistics Plan' for metros such as Delhi and Bengaluru for efficient freight and logistics movement within the city, a senior official of the Department for Promotion of Industry and Internal Trade (DPIIT) said on Wednesday.

Efficient freight and logistics movement in turn will decongest large cities, reduce pollution, logistics costs, while improving the overall quality of life in cities, DPIIT Additional Secretary Rajeev Singh Thakur said.

Thakur said that the plan will help advance the government's agenda towards Ease of Doing Business (EoDB) and fulfil India's aim of achieving carbon NetZero by 2070.

LOGISTICS LAYOUT

Efficient freight and logistics movement will:

- Decongest large cities
- Reduce pollution
- Reduce logistics costs
- Improve the overall quality of life

The guideline provides a framework and methodological approach from the perspective of a city to tailor its vision, objectives and indicators to specific local needs and city characteristics, collect relevant data and analyse its freight distribution issues and choose appropriate infrastructure, policy measures and services in collaboration with other relevant actors and stakeholders.

This guideline is considered a living document that will continue to evolve through the incorporation of feedback and input from stakeholders and DPIIT will extend its support to the willing state and union territories to prepare city logistics plans.

In 2022, the government launched the National Logistics Policy which includes the support for the development of city-level logistics plans. This City Logistics Plan initiative aims to reduce the logistics costs and improve efficiency and sustainability of urban freight transport.

The official further said that several countries have adopted city logistics plans to improve the efficiency and sustainability of urban freight transport. For instance, Japan has been a pioneer in city logistics, implementing consolidation centres and other innovative solutions to manage freight effectively in densely populated urban areas. Many European countries, including Germany, France and Netherlands have developed comprehensive city logistics plans.

XIAOMI LAUNCHES ULTRA AFFORDABLE 5G SMARTPHONE

Xiaomi has launched the Redmi A4 5G in India, priced at ₹8,499 onwards (inclusive of offers). The smartphone features a 6.88-inch HD+ display of a 120Hz refresh rate, a 50MP rear camera, a 5MP front camera, and a 5,160mAh battery with 18W charging. Powered by the Qualcomm Snapdragon 4s Gen 2 processor, the smartphone is among the ultra-affordable 5G smartphones available in India. It will be available from November 27.

Google releases 1st developer preview of Android 16

Google has rolled out the first Developer Preview of Android 16 for Pixel 6 and newer models. Key features include an updated photo picker, Health Records integration, Notification Cooldown, and Audio Sharing for multiple Bluetooth headphones. The update also brings new privacy features and UI enhancements.

Asus announces ROG Phone 9 series

Asus has announced the ROG Phone 9 series, featuring the Qualcomm Snapdragon 8 Elite chip. The series includes the ROG Phone 9 and Pro models, both with a 6.78-inch Amoled display of up to 185Hz refresh rate and up to 24GB RAM. The Pro model adds a 32MP telephoto and 13MP ultra-wide camera, while both have a 50MP primary camera with a 6-axis gimbal stabilisation technology. The AniMe Vision display on the back features customisable LEDs. The phones are expected to launch in India soon.

Cricket's heavyweights pad up for pitch-perfect battle Down Under

Can the BGT claim the title of cricket's 'premier rivalry'? Jury's still out

VISHAL MENON
New Delhi, 20 November

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

"Hello, and welcome to all our international viewers to the WACA Ground in Perth..."

For many, the understated, mellow voice of Richie Benaud served as a window into a distant land where cricket was loud, aggressive, and played in colossal amphitheatre-like stadia.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

It's little wonder Cricket Australia is championing this series as cricket's most storied rivalry.

Not everyone is convinced.

"The very idea of labelling anything as a premier series is bad and toxic.

Financially, we are so dominant that more teams want to play us," Mukul Kesavan, historian and author of Men in White, told *Business Standard*.

"But we were just beaten 3-0 by New Zealand at home. For us to call the Australia series the premier one is a bit smug — especially when Sri Lanka defeated New Zealand 2-0 and then absolutely smashed us. For us to fly to Australia and call this the asli muqabala is laughable," Kesavan elaborated.

There was a time when England and Australia dominated world cricket, and the sport's priorities revolved around them.

Since the turn of the century, India has joined this elite club, now called cricket's 'Big Three'. Together, these three nations generate more than 80 per cent of cricket's revenues and dominate broadcasting deals.

"What's happening now is a similar kind of narcissism. Indian cricket was once weak, but now we are the economic ecology of cricket — we sustain the entire ecosystem," Kesavan explained.

He cautioned against the peculiar ghamand (arrogance) where any series India plays, or any rival India nominates, is deemed cricket's 'greatest rivalry'.

Nevertheless, Kesavan conceded that the Border-Gavaskar Trophy has all the ingredients for a terrific series.

"It's an A-list series... I'm looking forward to it. It's always a pleasure to watch cricket on Australian grounds," he added.

Benaud might have summed it up in his inimitable style if he were still around: "Buckle up, folks. We're in for a marvellous ride."

NOTICE

Notice is hereby given that anExtra Ordinary General Meeting (EGM) of the Company will be held on **Saturday, December 14, 2024 at 11:00 A.M** at the registered office of the Company at Flat No. 101, Alekhaya Homes Temple Tree, Raghavendra Colony Kondapur, Hyderabad - 500084, Telangana. Notice of the said EGM, E-Voting instructions etc., have been sent to the members of the Company electronically whose e-mail IDs are registered with the Depositories and in physical mode to all the other members at their registered addresses. The dispatch / e-mail transmission of Notice of EGM has been completed on November 20, 2024. The copies of aforesaid notice along with other documents as mentioned in the notice are available on the website of the Company **(https://tanvifoods.com/)** and are available for inspection at the registered office of the Company during the office hours.

Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of Companies (Management and Administration) Rules, 2014, as amended, and Regulation 44 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, the Company is offering e-voting facility to its members in respect of all the items of business to be transacted at this EGM. The members may transact the said business through voting by electronic means. The Company has engaged Central Depository Services (India) Limited as the authorized agency to provide the e-voting facility.

The remote e-voting facility will commence on Wednesday, December 11, 2024 at 09:00 A.M and close on Friday, December 13, 2024at 05:00 P.M (both days inclusive) and shall not be available thereafter. The remote e-voting shall not be allowed after the said date and time and the e-voting module shall be disabled for voting thereafter. During this period, only a person whose name is recorded in the Register of members or Register of beneficial owners maintained by the Depositories as on the cut-off date, i.e.,Saturday,December07, 2024, shall be entitled to avail the facility of remote e-voting / voting in the EGM. The voting rights of the members for e-voting and for physical voting at the meeting shall be in proportionate to their shareholding in the paid up equity share capital of the Company as on the said cut-off date.

Any person who acquires shares of the Company and becomes its member after the dispatch of the notice and also holds shares as on cut-off date may cast his vote by remote e-voting / voting in the EGM. Further, if already registered with CDSL for remote e-voting then you can use existing User ID and Password for casting your vote. You may also approach the Company for required assistance in connection with generation of User ID / Password in order to exercise your right to vote.

Facility of voting through Physical Ballot is being made available at the EGM. Members attending the meeting, who have not already cast their vote by remote e-voting may exercise their right at the meeting. A member who has cast his vote by remote e-voting may participate in the EGM even after exercising his right to vote through remote e-voting but shall not be allowed to vote in the meeting.

The notice of the EGM along with e-voting instructions, are available on the Company's website **https://tanvifoods.com/**and also on the website of CDSL, **www.cdslindia.com.**

Members are requested to refer e-voting instructions contained in the Notice of the extra ordinary general meeting of the Company, regarding the process and manner for e-voting by electronic means.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

It's little wonder Cricket Australia is championing this series as cricket's most storied rivalry.

Not everyone is convinced.

"The very idea of labelling anything as a premier series is bad and toxic.

Financially, we are so dominant that more teams want to play us," Mukul Kesavan, historian and author of Men in White, told *Business Standard*.

"But we were just beaten 3-0 by New Zealand at home. For us to call the Australia series the premier one is a bit smug — especially when Sri Lanka defeated New Zealand 2-0 and then absolutely smashed us. For us to fly to Australia and call this the asli muqabala is laughable," Kesavan elaborated.

There was a time when England and Australia dominated world cricket, and the sport's priorities revolved around them.

Since the turn of the century, India has joined this elite club, now called cricket's 'Big Three'. Together, these three nations generate more than 80 per cent of cricket's revenues and dominate broadcasting deals.

"What's happening now is a similar kind of narcissism. Indian cricket was once weak, but now we are the economic ecology of cricket — we sustain the entire ecosystem," Kesavan explained.

He cautioned against the peculiar ghamand (arrogance) where any series India plays, or any rival India nominates, is deemed cricket's 'greatest rivalry'.

Nevertheless, Kesavan conceded that the Border-Gavaskar Trophy has all the ingredients for a terrific series.

"It's an A-list series... I'm looking forward to it. It's always a pleasure to watch cricket on Australian grounds," he added.

Benaud might have summed it up in his inimitable style if he were still around: "Buckle up, folks. We're in for a marvellous ride."

NOTICE

Notice is hereby given that anExtra Ordinary General Meeting (EGM) of the Company will be held on **Saturday, December 14, 2024 at 11:00 A.M** at the registered office of the Company at Flat No. 101, Alekhaya Homes Temple Tree, Raghavendra Colony Kondapur, Hyderabad - 500084, Telangana. Notice of the said EGM, E-Voting instructions etc., have been sent to the members of the Company electronically whose e-mail IDs are registered with the Depositories and in physical mode to all the other members at their registered addresses. The dispatch / e-mail transmission of Notice of EGM has been completed on November 20, 2024. The copies of aforesaid notice along with other documents as mentioned in the notice are available on the website of the Company **(https://tanvifoods.com/)** and are available for inspection at the registered office of the Company during the office hours.

Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of Companies (Management and Administration) Rules, 2014, as amended, and Regulation 44 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, the Company is offering e-voting facility to its members in respect of all the items of business to be transacted at this EGM. The members may transact the said business through voting by electronic means. The Company has engaged Central Depository Services (India) Limited as the authorized agency to provide the e-voting facility.

The remote e-voting facility will commence on Wednesday, December 11, 2024 at 09:00 A.M and close on Friday, December 13, 2024at 05:00 P.M (both days inclusive) and shall not be available thereafter. The remote e-voting shall not be allowed after the said date and time and the e-voting module shall be disabled for voting thereafter. During this period, only a person whose name is recorded in the Register of members or Register of beneficial owners maintained by the Depositories as on the cut-off date, i.e.,Saturday,December07, 2024, shall be entitled to avail the facility of remote e-voting / voting in the EGM. The voting rights of the members for e-voting and for physical voting at the meeting shall be in proportionate to their shareholding in the paid up equity share capital of the Company as on the said cut-off date.

Any person who acquires shares of the Company and becomes its member after the dispatch of the notice and also holds shares as on cut-off date may cast his vote by remote e-voting / voting in the EGM. Further, if already registered with CDSL for remote e-voting then you can use existing User ID and Password for casting your vote. You may also approach the Company for required assistance in connection with generation of User ID / Password in order to exercise your right to vote.

Facility of voting through Physical Ballot is being made available at the EGM. Members attending the meeting, who have not already cast their vote by remote e-voting may exercise their right at the meeting. A member who has cast his vote by remote e-voting may participate in the EGM even after exercising his right to vote through remote e-voting but shall not be allowed to vote in the meeting.

The notice of the EGM along with e-voting instructions, are available on the Company's website **https://tanvifoods.com/**and also on the website of CDSL, **www.cdslindia.com.**

Members are requested to refer e-voting instructions contained in the Notice of the extra ordinary general meeting of the Company, regarding the process and manner for e-voting by electronic means.

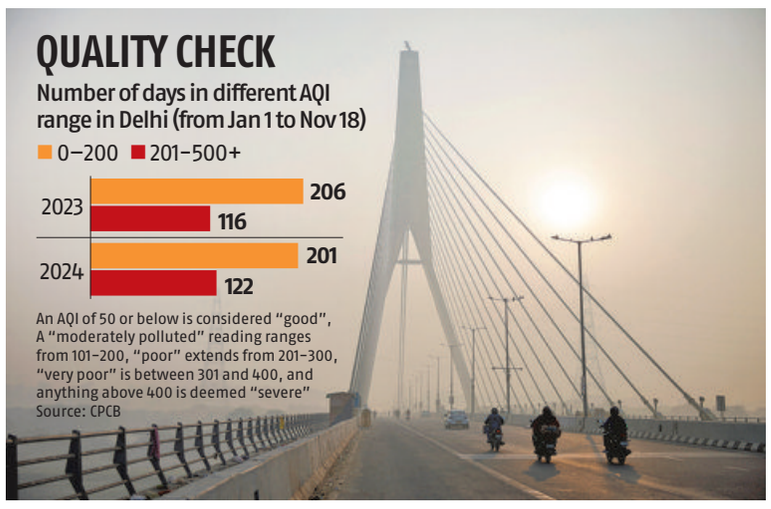

For any query or grievance, members may contact CDSL at Toll free No. 18002005533 or write an e-mail to **helpdesk.evoting@india.com** or contact the Company Secretary & Compliance Officerby writing an email to **investors@tanvifoods.com**

At 122, harmful AQI days in 2024 six more than last year

Number of days with air AQI between 0 and 200 in Delhi has stood at 201 this year so far

NITIN KUMAR
New Delhi, 20 November

The number of days with harmful air quality in Delhi has risen this year, surpassing figures from the previous years. From January 1 to November 18, there were 122 days when the air quality index (AQI) exceeded 201, compared to 116 days during the same period in 2023.

In contrast, the number of days when the AQI ranged between 0 and 200 stood at 201 this year, slightly lower than 206 days recorded last year.

According to the Central Pollution Control Board (CPCB), AQI levels between 0 and 200 are divided into three categories — good (0–50), satisfactory (51–100), and moderate (101–200).

While these levels are less harmful, their health impacts vary, ranging from minimal discomfort for sensitive individuals to moderate breathing difficulties for people with lungs, asthma, or heart conditions.

However, air quality in the poor (201–300), very poor (301–400), and severe (above 400) categories pose a significant threat to health.

Poor air quality leads to breathing discomfort for individuals during prolonged exposure, while very poor conditions can cause respiratory illnesses.

Severe levels not only affect healthy people but also severely impact those with pre-existing health issues.

The rising number of days with harmful AQI levels highlights the growing challenge of controlling air pollution. India now leads the world in the number of cities listed among the top 100 most polluted globally, surpassing China by a significant margin.

According to a recent S&P Global Mobility web presentation, 39 Indian cities feature in the list, compared to 30 cities in China, its closest competitor.

According to data from the CPCB, Delhi remains one of the most polluted cities in India. On November 18, the city recorded an average AQI of 494, the highest in the country.

Most monitoring stations in Delhi reported an AQI of 500, the upper limit of India's AQI scale.

However, the international air quality monitoring app IQAir recorded Delhi's AQI at a staggering 1,600 on the same day. The discrepancy arises from differing standards for measuring air quality across countries.

In India, the permissible limit for PM2.5 concentration is 60 micrograms per cubic metre.

Countries adhering to World Health Organization (WHO) guidelines have much stricter limits of five or 10 micrograms per cubic metre.

India's AQI scale is capped at 500, which serves as a critical threshold indicating severe pollution levels.

An AQI beyond this cap signals hazardous conditions and highlights the urgency of addressing the capital's worsening air quality.

Govt asks airlines to ensure ample staff at check-in points

DEEPAK PATEL
New Delhi, 20 November

Airlines must ensure that all check-in counters at the Delhi airport are fully staffed to minimise passenger inconvenience as smog has started affecting the flight operations, Aviation Minister Rammohan Naidu directed on Wednesday.

The minister gave this direction during a meeting with representatives of major airlines, Delhi International Airport Limited (DIAL), officials of the Ministry of Civil Aviation, Directorate General of Civil Aviation (DGCA) and the Bureau of Civil Aviation Security (BCAS).

The meeting was called on Wednesday to assess readiness of the aviation ecosystem amid the "early onset of fog/smog" in Delhi.

More than 370 flights, including departures as well as arrivals, were delayed at the Delhi airport on November 18 due to dense fog and pollution.

"Reviewing the readiness of the airport operation control room, the minister stressed the importance of real-time coordination between ATC (air traffic controller), airlines, ground handlers and airport operators to maintain seamless operation," the ministry said in a statement.

During the meeting, all the airlines confirmed adherence with the DGCA guidelines which asks them to deploy CAT-III compliant aircraft and pilots in Delhi and other fog-affected airports. The CAT-III instrument landing system (ILS) at airports enables safe aircraft landings in extremely low visibility, with CAT-III A allowing landings at a minimum visibility of 200 meters and CAT-III B at 50 meters.

"Three out of four runways at the Delhi airport have activated CAT-III ILS systems. In addition, the Delhi Airport operator has been advised to install LED screens at prominent locations to provide real-time updates on visibility conditions and to increase the availability of 'follow me' vehicles to guide aircraft during low visibility situations," the ministry mentioned.

India ranks 10th on top climate performers list

India ranked 10th on a list of over 60 countries assessed for efforts to fight climate change despite dropping two spots compared to last ago, thanks to its low per capita emissions and rapid deployment of renewables, a report said on Wednesday. The Climate Change Performance Index report leaves the first three places empty followed by Denmark (fourth place) and the Netherlands while the largest two emitters, China and the US, remain very low at 55th and 57th place, respectively. The 63 countries, along with the European Union, assessed in the CCPI are responsible for 90 per cent of global emissions. **PTI**

Now, access air quality info on Google Maps

Users across India can now access hyperlocal air quality information on Google Maps, the tech titan said on Wednesday announcing Air View+, an AI-powered and ecosystem-based solution. Google said Air View+ enables valuable air quality insights to government agencies responsible for environmental monitoring, by offering citizens hyperlocal air quality information on Google Maps.As India continues its "incredible growth momentum", backed by tech innovation and demographic advantage, it is crucial to also mitigate risks which could slow it down, Google said. **PTI**

Govt prepares logistics plan for metros to tackle traffic, pollution

SHREYA NANDI
New Delhi, 20 November

The Centre has prepared a 'City Logistics Plan' for metros such as Delhi and Bengaluru for efficient freight and logistics movement within the city, a senior official of the Department for Promotion of Industry and Internal Trade (DPIIT) said on Wednesday.

Efficient freight and logistics movement in turn will decongest large cities, reduce pollution, logistics costs, while improving the overall quality of life in cities, DPIIT Additional Secretary Rajeev Singh Thakur said.

Thakur said that the plan will help advance the government's agenda towards Ease of Doing Business (EoDB) and fulfil India's aim of achieving carbon NetZero by 2070.

LOGISTICS LAYOUT

Efficient freight and logistics movement will:

- Decongest large cities
- Reduce pollution
- Reduce logistics costs
- Improve the overall quality of life

The guideline provides a framework and methodological approach from the perspective of a city to tailor its vision, objectives and indicators to specific local needs and city characteristics, collect relevant data and analyse its freight distribution issues and choose appropriate infrastructure, policy measures and services in collaboration with other relevant actors and stakeholders.

This guideline is considered a living document that will continue to evolve through the incorporation of feedback and input from stakeholders and DPIIT will extend its support to the willing state and union territories to prepare city logistics plans.

In 2022, the government launched the National Logistics Policy which includes the support for the development of city-level logistics plans. This City Logistics Plan initiative aims to reduce the logistics costs and improve efficiency and sustainability of urban freight transport.

The official further said that several countries have adopted city logistics plans to improve the efficiency and sustainability of urban freight transport. For instance, Japan has been a pioneer in city logistics, implementing consolidation centres and other innovative solutions to manage freight effectively in densely populated urban areas. Many European countries, including Germany, France and Netherlands have developed comprehensive city logistics plans.

XIAOMI LAUNCHES ULTRA AFFORDABLE 5G SMARTPHONE

Xiaomi has launched the Redmi A4 5G in India, priced at ₹8,499 onwards (inclusive of offers). The smartphone features a 6.88-inch HD+ display of a 120Hz refresh rate, a 50MP rear camera, a 5MP front camera, and a 5,160mAh battery with 18W charging. Powered by the Qualcomm Snapdragon 4s Gen 2 processor, the smartphone is among the ultra-affordable 5G smartphones available in India. It will be available from November 27.

Google releases 1st developer preview of Android 16

Google has rolled out the first Developer Preview of Android 16 for Pixel 6 and newer models. Key features include an updated photo picker, Health Records integration, Notification Cooldown, and Audio Sharing for multiple Bluetooth headphones. The update also brings new privacy features and UI enhancements.

Asus announces ROG Phone 9 series

Asus has announced the ROG Phone 9 series, featuring the Qualcomm Snapdragon 8 Elite chip. The series includes the ROG Phone 9 and Pro models, both with a 6.78-inch Amoled display of up to 185Hz refresh rate and up to 24GB RAM. The Pro model adds a 32MP telephoto and 13MP ultra-wide camera, while both have a 50MP primary camera with a 6-axis gimbal stabilisation technology. The AniMe Vision display on the back features customisable LEDs. The phones are expected to launch in India soon.

Cricket's heavyweights pad up for pitch-perfect battle Down Under

Can the BGT claim the title of cricket's 'premier rivalry'? Jury's still out

VISHAL MENON
New Delhi, 20 November

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

"Hello, and welcome to all our international viewers to the WACA Ground in Perth..."

For many, the understated, mellow voice of Richie Benaud served as a window into a distant land where cricket was loud, aggressive, and played in colossal amphitheatre-like stadia.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

At 122, harmful AQI days in 2024 six more than last year

Number of days with air AQI between 0 and 200 in Delhi has stood at 201 this year so far

NITIN KUMAR
New Delhi, 20 November

The number of days with harmful air quality in Delhi has risen this year, surpassing figures from the previous years. From January 1 to November 18, there were 122 days when the air quality index (AQI) exceeded 201, compared to 116 days during the same period in 2023.

In contrast, the number of days when the AQI ranged between 0 and 200 stood at 201 this year, slightly lower than 206 days recorded last year.

According to the Central Pollution Control Board (CPCB), AQI levels between 0 and 200 are divided into three categories — good (0–50), satisfactory (51–100), and moderate (101–200).

While these levels are less harmful, their health impacts vary, ranging from minimal discomfort for sensitive individuals to moderate breathing difficulties for people with lungs, asthma, or heart conditions.

However, air quality in the poor (201–300), very poor (301–400), and severe (above 400) categories pose a significant threat to health.

Poor air quality leads to breathing discomfort for individuals during prolonged exposure, while very poor conditions can cause respiratory illnesses.

Severe levels not only affect healthy people but also severely impact those with pre-existing health issues.

The rising number of days with harmful AQI levels highlights the growing challenge of controlling air pollution. India now leads the world in the number of cities listed among the top 100 most polluted globally, surpassing China by a significant margin.

According to a recent S&P Global Mobility web presentation, 39 Indian cities feature in the list, compared to 30 cities in China, its closest competitor.

According to data from the CPCB, Delhi remains one of the most polluted cities in India. On November 18, the city recorded an average AQI of 494, the highest in the country.

Most monitoring stations in Delhi reported an AQI of 500, the upper limit of India's AQI scale.

However, the international air quality monitoring app IQAir recorded Delhi's AQI at a staggering 1,600 on the same day. The discrepancy arises from differing standards for measuring air quality across countries.

In India, the permissible limit for PM2.5 concentration is 60 micrograms per cubic metre.

Countries adhering to World Health Organization (WHO) guidelines have much stricter limits of five or 10 micrograms per cubic metre.

India's AQI scale is capped at 500, which serves as a critical threshold indicating severe pollution levels.

An AQI beyond this cap signals hazardous conditions and highlights the urgency of addressing the capital's worsening air quality.

Govt asks airlines to ensure ample staff at check-in points

DEEPAK PATEL
New Delhi, 20 November

Airlines must ensure that all check-in counters at the Delhi airport are fully staffed to minimise passenger inconvenience as smog has started affecting the flight operations, Aviation Minister Rammohan Naidu directed on Wednesday.

The minister gave this direction during a meeting with representatives of major airlines, Delhi International Airport Limited (DIAL), officials of the Ministry of Civil Aviation, Directorate General of Civil Aviation (DGCA) and the Bureau of Civil Aviation Security (BCAS).

The meeting was called on Wednesday to assess readiness of the aviation ecosystem amid the "early onset of fog/smog" in Delhi.

More than 370 flights, including departures as well as arrivals, were delayed at the Delhi airport on November 18 due to dense fog and pollution.

"Reviewing the readiness of the airport operation control room, the minister stressed the importance of real-time coordination between ATC (air traffic controller), airlines, ground handlers and airport operators to maintain seamless operation," the ministry said in a statement.

During the meeting, all the airlines confirmed adherence with the DGCA guidelines which asks them to deploy CAT-III compliant aircraft and pilots in Delhi and other fog-affected airports. The CAT-III instrument landing system (ILS) at airports enables safe aircraft landings in extremely low visibility, with CAT-III A allowing landings at a minimum visibility of 200 meters and CAT-III B at 50 meters.

"Three out of four runways at the Delhi airport have activated CAT-III ILS systems. In addition, the Delhi Airport operator has been advised to install LED screens at prominent locations to provide real-time updates on visibility conditions and to increase the availability of 'follow me' vehicles to guide aircraft during low visibility situations," the ministry mentioned.

India ranks 10th on top climate performers list

India ranked 10th on a list of over 60 countries assessed for efforts to fight climate change despite dropping two spots compared to last ago, thanks to its low per capita emissions and rapid deployment of renewables, a report said on Wednesday. The Climate Change Performance Index report leaves the first three places empty followed by Denmark (fourth place) and the Netherlands while the largest two emitters, China and the US, remain very low at 55th and 57th place, respectively. The 63 countries, along with the European Union, assessed in the CCPI are responsible for 90 per cent of global emissions. **PTI**

Now, access air quality info on Google Maps

Users across India can now access hyperlocal air quality information on Google Maps, the tech titan said on Wednesday announcing Air View+, an AI-powered and ecosystem-based solution. Google said Air View+ enables valuable air quality insights to government agencies responsible for environmental monitoring, by offering citizens hyperlocal air quality information on Google Maps.As India continues its "incredible growth momentum", backed by tech innovation and demographic advantage, it is crucial to also mitigate risks which could slow it down, Google said. **PTI**

Govt prepares logistics plan for metros to tackle traffic, pollution

SHREYA NANDI
New Delhi, 20 November

The Centre has prepared a 'City Logistics Plan' for metros such as Delhi and Bengaluru for efficient freight and logistics movement within the city, a senior official of the Department for Promotion of Industry and Internal Trade (DPIIT) said on Wednesday.

Efficient freight and logistics movement in turn will decongest large cities, reduce pollution, logistics costs, while improving the overall quality of life in cities, DPIIT Additional Secretary Rajeev Singh Thakur said.

Thakur said that the plan will help advance the government's agenda towards Ease of Doing Business (EoDB) and fulfil India's aim of achieving carbon NetZero by 2070.

LOGISTICS LAYOUT

Efficient freight and logistics movement will:

- Decongest large cities
- Reduce pollution
- Reduce logistics costs
- Improve the overall quality of life

The guideline provides a framework and methodological approach from the perspective of a city to tailor its vision, objectives and indicators to specific local needs and city characteristics, collect relevant data and analyse its freight distribution issues and choose appropriate infrastructure, policy measures and services in collaboration with other relevant actors and stakeholders.

This guideline is considered a living document that will continue to evolve through the incorporation of feedback and input from stakeholders and DPIIT will extend its support to the willing state and union territories to prepare city logistics plans.

In 2022, the government launched the National Logistics Policy which includes the support for the development of city-level logistics plans. This City Logistics Plan initiative aims to reduce the logistics costs and improve efficiency and sustainability of urban freight transport.

The official further said that several countries have adopted city logistics plans to improve the efficiency and sustainability of urban freight transport. For instance, Japan has been a pioneer in city logistics, implementing consolidation centres and other innovative solutions to manage freight effectively in densely populated urban areas. Many European countries, including Germany, France and Netherlands have developed comprehensive city logistics plans.

The update also brings new privacy features and UI enhancements.

Asus announces ROG Phone 9 series

Asus has announced the ROG Phone 9 series, featuring the Qualcomm Snapdragon 8 Elite chip. The series includes the ROG Phone 9 and Pro models, both with a 6.78-inch Amoled display of up to 185Hz refresh rate and up to 24GB RAM. The Pro model adds a 32MP telephoto and 13MP ultra-wide camera, while both have a 50MP primary camera with a 6-axis gimbal stabilisation technology. The AniMe Vision display on the back features customisable LEDs. The phones are expected to launch in India soon.

Cricket's heavyweights pad up for pitch-perfect battle Down Under

Can the BGT claim the title of cricket's 'premier rivalry'? Jury's still out

VISHAL MENON
New Delhi, 20 November

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

"Hello, and welcome to all our international viewers to the WACA Ground in Perth..."

For many, the understated, mellow voice of Richie Benaud served as a window into a distant land where cricket was loud, aggressive, and played in colossal amphitheatre-like stadia.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

It's little wonder Cricket Australia is championing this series as cricket's most storied rivalry.

Not everyone is convinced.

"The very idea of labelling anything as a premier series is bad and toxic.

Financially, we are so dominant that more teams want to play us," Mukul Kesavan, historian and author of Men in White, told *Business Standard*.

"But we were just beaten 3-0 by New Zealand at home. For us to call the Australia series the premier one is a bit smug — especially when Sri Lanka defeated New Zealand 2-0 and then absolutely smashed us. For us to fly to Australia and call this the asli muqabala is laughable," Kesavan elaborated.

There was a time when England and Australia dominated world cricket, and the sport's priorities revolved around them.

Since the turn of the century, India has joined this elite club, now called cricket's 'Big Three'. Together, these three nations generate more than 80 per cent of cricket's revenues and dominate broadcasting deals.

"What's happening now is a similar kind of narcissism. Indian cricket was once weak, but now we are the economic ecology of cricket — we sustain the entire ecosystem," Kesavan explained.

He cautioned against the peculiar ghamand (arrogance) where any series India plays, or any rival India nominates, is deemed cricket's 'greatest rivalry'.

Nevertheless, Kesavan conceded that the Border-Gavaskar Trophy has all the ingredients for a terrific series.

"It's an A-list series... I'm looking forward to it. It's always a pleasure to watch cricket on Australian grounds," he added.

Benaud might have summed it up in his inimitable style if he were still around: "Buckle up, folks. We're in for a marvellous ride."

Cricket's heavyweights pad up for pitch-perfect battle Down Under

Can the BGT claim the title of cricket's 'premier rivalry'? Jury's still out

VISHAL MENON
New Delhi, 20 November

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

"Hello, and welcome to all our international viewers to the WACA Ground in Perth..."

For many, the understated, mellow voice of Richie Benaud served as a window into a distant land where cricket was loud, aggressive, and played in colossal amphitheatre-like stadia.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

It's little wonder Cricket Australia is championing this series as cricket's most storied rivalry.

Not everyone is convinced.

"The very idea of labelling anything as a premier series is bad and toxic.

Financially, we are so dominant that more teams want to play us," Mukul Kesavan, historian and author of Men in White, told *Business Standard*.

"But we were just beaten 3-0 by New Zealand at home. For us to call the Australia series the premier one is a bit smug — especially when Sri Lanka defeated New Zealand 2-0 and then absolutely smashed us. For us to fly to Australia and call this the asli muqabala is laughable," Kesavan elaborated.

There was a time when England and Australia dominated world cricket, and the sport's priorities revolved around them.

Since the turn of the century, India has joined this elite club, now called cricket's 'Big Three'. Together, these three nations generate more than 80 per cent of cricket's revenues and dominate broadcasting deals.

"What's happening now is a similar kind of narcissism. Indian cricket was once weak, but now we are the economic ecology of cricket — we sustain the entire ecosystem," Kesavan explained.

He cautioned against the peculiar ghamand (arrogance) where any series India plays, or any rival India nominates, is deemed cricket's 'greatest rivalry'.

Nevertheless, Kesavan conceded that the Border-Gavaskar Trophy has all the ingredients for a terrific series.

"It's an A-list series... I'm looking forward to it. It's always a pleasure to watch cricket on Australian grounds," he added.

Benaud might have summed it up in his inimitable style if he were still around: "Buckle up, folks. We're in for a marvellous ride."

NOTICE

Notice is hereby given that anExtra Ordinary General Meeting (EGM) of the Company will be held on **Saturday, December 14, 2024 at 11:00 A.M** at the registered office of the Company at Flat No. 101, Alekhaya Homes Temple Tree, Raghavendra Colony Kondapur, Hyderabad - 500084, Telangana. Notice of the said EGM, E-Voting instructions etc., have been sent to the members of the Company electronically whose e-mail IDs are registered with the Depositories and in physical mode to all the other members at their registered addresses. The dispatch / e-mail transmission of Notice of EGM has been completed on November 20, 2024. The copies of aforesaid notice along with other documents as mentioned in the notice are available on the website of the Company **(https://tanvifoods.com/)** and are available for inspection at the registered office of the Company during the office hours.

Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of Companies (Management and Administration) Rules, 2014, as amended, and Regulation 44 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, the Company is offering e-voting facility to its members in respect of all the items of business to be transacted at this EGM. The members may transact the said business through voting by electronic means. The Company has engaged Central Depository Services (India) Limited as the authorized agency to provide the e-voting facility.

The remote e-voting facility will commence on Wednesday, December 11, 2024 at 09:00 A.M and close on Friday, December 13, 2024at 05:00 P.M (both days inclusive) and shall not be available thereafter. The remote e-voting shall not be allowed after the said date and time and the e-voting module shall be disabled for voting thereafter. During this period, only a person whose name is recorded in the Register of members or Register of beneficial owners maintained by the Depositories as on the cut-off date, i.e.,Saturday,December07, 2024, shall be entitled to avail the facility of remote e-voting / voting in the EGM. The voting rights of the members for e-voting and for physical voting at the meeting shall be in proportionate to their shareholding in the paid up equity share capital of the Company as on the said cut-off date.

Any person who acquires shares of the Company and becomes its member after the dispatch of the notice and also holds shares as on cut-off date may cast his vote by remote e-voting / voting in the EGM. Further, if already registered with CDSL for remote e-voting then you can use existing User ID and Password for casting your vote. You may also approach the Company for required assistance in connection with generation of User ID / Password in order to exercise your right to vote.

Facility of voting through Physical Ballot is being made available at the EGM. Members attending the meeting, who have not already cast their vote by remote e-voting may exercise their right at the meeting. A member who has cast his vote by remote e-voting may participate in the EGM even after exercising his right to vote through remote e-voting but shall not be allowed to vote in the meeting.

The notice of the EGM along with e-voting instructions, are available on the Company's website **https://tanvifoods.com/**and also on the website of CDSL, **www.cdslindia.com.**

Members are requested to refer e-voting instructions contained in the Notice of the extra ordinary general meeting of the Company, regarding the process and manner for e-voting by electronic means.

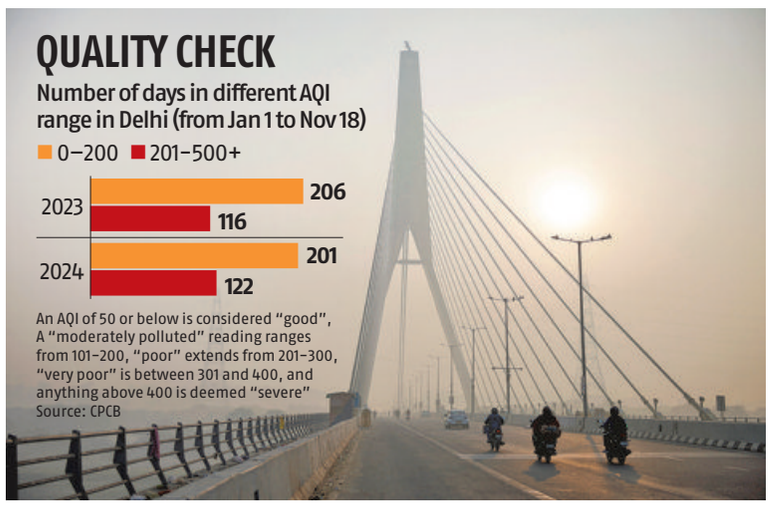

For any query or grievance, members may contact CDSL at Toll free No. 18002005533 or write an e-mail to **helpdesk.evoting@india.com** or contact the Company Secretary & Compliance Officerby writing an email to **investors@tanvifoods.com**

At 122, harmful AQI days in 2024 six more than last year

Number of days with air AQI between 0 and 200 in Delhi has stood at 201 this year so far

NITIN KUMAR
New Delhi, 20 November

The number of days with harmful air quality in Delhi has risen this year, surpassing figures from the previous years. From January 1 to November 18, there were 122 days when the air quality index (AQI) exceeded 201, compared to 116 days during the same period in 2023.

In contrast, the number of days when the AQI ranged between 0 and 200 stood at 201 this year, slightly lower than 206 days recorded last year.

According to the Central Pollution Control Board (CPCB), AQI levels between 0 and 200 are divided into three categories — good (0–50), satisfactory (51–100), and moderate (101–200).

While these levels are less harmful, their health impacts vary, ranging from minimal discomfort for sensitive individuals to moderate breathing difficulties for people with lungs, asthma, or heart conditions.

However, air quality in the poor (201–300), very poor (301–400), and severe (above 400) categories pose a significant threat to health.

Poor air quality leads to breathing discomfort for individuals during prolonged exposure, while very poor conditions can cause respiratory illnesses.

Severe levels not only affect healthy people but also severely impact those with pre-existing health issues.

The rising number of days with harmful AQI levels highlights the growing challenge of controlling air pollution. India now leads the world in the number of cities listed among the top 100 most polluted globally, surpassing China by a significant margin.

According to a recent S&P Global Mobility web presentation, 39 Indian cities feature in the list, compared to 30 cities in China, its closest competitor.

According to data from the CPCB, Delhi remains one of the most polluted cities in India. On November 18, the city recorded an average AQI of 494, the highest in the country.

Most monitoring stations in Delhi reported an AQI of 500, the upper limit of India's AQI scale.

However, the international air quality monitoring app IQAir recorded Delhi's AQI at a staggering 1,600 on the same day. The discrepancy arises from differing standards for measuring air quality across countries.

In India, the permissible limit for PM2.5 concentration is 60 micrograms per cubic metre.

Countries adhering to World Health Organization (WHO) guidelines have much stricter limits of five or 10 micrograms per cubic metre.

India's AQI scale is capped at 500, which serves as a critical threshold indicating severe pollution levels.

An AQI beyond this cap signals hazardous conditions and highlights the urgency of addressing the capital's worsening air quality.

Govt asks airlines to ensure ample staff at check-in points

DEEPAK PATEL
New Delhi, 20 November

Airlines must ensure that all check-in counters at the Delhi airport are fully staffed to minimise passenger inconvenience as smog has started affecting the flight operations, Aviation Minister Rammohan Naidu directed on Wednesday.

The minister gave this direction during a meeting with representatives of major airlines, Delhi International Airport Limited (DIAL), officials of the Ministry of Civil Aviation, Directorate General of Civil Aviation (DGCA) and the Bureau of Civil Aviation Security (BCAS).

The meeting was called on Wednesday to assess readiness of the aviation ecosystem amid the "early onset of fog/smog" in Delhi.

More than 370 flights, including departures as well as arrivals, were delayed at the Delhi airport on November 18 due to dense fog and pollution.

"Reviewing the readiness of the airport operation control room, the minister stressed the importance of real-time coordination between ATC (air traffic controller), airlines, ground handlers and airport operators to maintain seamless operation," the ministry said in a statement.

During the meeting, all the airlines confirmed adherence with the DGCA guidelines which asks them to deploy CAT-III compliant aircraft and pilots in Delhi and other fog-affected airports. The CAT-III instrument landing system (ILS) at airports enables safe aircraft landings in extremely low visibility, with CAT-III A allowing landings at a minimum visibility of 200 meters and CAT-III B at 50 meters.

"Three out of four runways at the Delhi airport have activated CAT-III ILS systems. In addition, the Delhi Airport operator has been advised to install LED screens at prominent locations to provide real-time updates on visibility conditions and to increase the availability of 'follow me' vehicles to guide aircraft during low visibility situations," the ministry mentioned.

India ranks 10th on top climate performers list

India ranked 10th on a list of over 60 countries assessed for efforts to fight climate change despite dropping two spots compared to last ago, thanks to its low per capita emissions and rapid deployment of renewables, a report said on Wednesday. The Climate Change Performance Index report leaves the first three places empty followed by Denmark (fourth place) and the Netherlands while the largest two emitters, China and the US, remain very low at 55th and 57th place, respectively. The 63 countries, along with the European Union, assessed in the CCPI are responsible for 90 per cent of global emissions. **PTI**

Now, access air quality info on Google Maps

Users across India can now access hyperlocal air quality information on Google Maps, the tech titan said on Wednesday announcing Air View+, an AI-powered and ecosystem-based solution. Google said Air View+ enables valuable air quality insights to government agencies responsible for environmental monitoring, by offering citizens hyperlocal air quality information on Google Maps.As India continues its "incredible growth momentum", backed by tech innovation and demographic advantage, it is crucial to also mitigate risks which could slow it down, Google said. **PTI**

Govt prepares logistics plan for metros to tackle traffic, pollution

SHREYA NANDI
New Delhi, 20 November

The Centre has prepared a 'City Logistics Plan' for metros such as Delhi and Bengaluru for efficient freight and logistics movement within the city, a senior official of the Department for Promotion of Industry and Internal Trade (DPIIT) said on Wednesday.

Efficient freight and logistics movement in turn will decongest large cities, reduce pollution, logistics costs, while improving the overall quality of life in cities, DPIIT Additional Secretary Rajeev Singh Thakur said.

Thakur said that the plan will help advance the government's agenda towards Ease of Doing Business (EoDB) and fulfil India's aim of achieving carbon NetZero by 2070.

LOGISTICS LAYOUT

Efficient freight and logistics movement will:

- Decongest large cities
- Reduce pollution
- Reduce logistics costs
- Improve the overall quality of life

The guideline provides a framework and methodological approach from the perspective of a city to tailor its vision, objectives and indicators to specific local needs and city characteristics, collect relevant data and analyse its freight distribution issues and choose appropriate infrastructure, policy measures and services in collaboration with other relevant actors and stakeholders.

This guideline is considered a living document that will continue to evolve through the incorporation of feedback and input from stakeholders and DPIIT will extend its support to the willing state and union territories to prepare city logistics plans.

In 2022, the government launched the National Logistics Policy which includes the support for the development of city-level logistics plans. This City Logistics Plan initiative aims to reduce the logistics costs and improve efficiency and sustainability of urban freight transport.

The official further said that several countries have adopted city logistics plans to improve the efficiency and sustainability of urban freight transport. For instance, Japan has been a pioneer in city logistics, implementing consolidation centres and other innovative solutions to manage freight effectively in densely populated urban areas. Many European countries, including Germany, France and Netherlands have developed comprehensive city logistics plans.

XIAOMI LAUNCHES ULTRA AFFORDABLE 5G SMARTPHONE

Xiaomi has launched the Redmi A4 5G in India, priced at ₹8,499 onwards (inclusive of offers). The smartphone features a 6.88-inch HD+ display of a 120Hz refresh rate, a 50MP rear camera, a 5MP front camera, and a 5,160mAh battery with 18W charging. Powered by the Qualcomm Snapdragon 4s Gen 2 processor, the smartphone is among the ultra-affordable 5G smartphones available in India. It will be available from November 27.

Google releases 1st developer preview of Android 16

Google has rolled out the first Developer Preview of Android 16 for Pixel 6 and newer models. Key features include an updated photo picker, Health Records integration, Notification Cooldown, and Audio Sharing for multiple Bluetooth headphones. The update also brings new privacy features and UI enhancements.

Asus announces ROG Phone 9 series

Asus has announced the ROG Phone 9 series, featuring the Qualcomm Snapdragon 8 Elite chip. The series includes the ROG Phone 9 and Pro models, both with a 6.78-inch Amoled display of up to 185Hz refresh rate and up to 24GB RAM. The Pro model adds a 32MP telephoto and 13MP ultra-wide camera, while both have a 50MP primary camera with a 6-axis gimbal stabilisation technology. The AniMe Vision display on the back features customisable LEDs. The phones are expected to launch in India soon.

Cricket's heavyweights pad up for pitch-perfect battle Down Under

Can the BGT claim the title of cricket's 'premier rivalry'? Jury's still out

VISHAL MENON
New Delhi, 20 November

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

"Hello, and welcome to all our international viewers to the WACA Ground in Perth..."

For many, the understated, mellow voice of Richie Benaud served as a window into a distant land where cricket was loud, aggressive, and played in colossal amphitheatre-like stadia.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

The remote e-voting facility will commence on Wednesday, December 11, 2024 at 09:00 A.M and close on Friday, December 13, 2024at 05:00 P.M (both days inclusive) and shall not be available thereafter. The remote e-voting shall not be allowed after the said date and time and the e-voting module shall be disabled for voting thereafter. During this period, only a person whose name is recorded in the Register of members or Register of beneficial owners maintained by the Depositories as on the cut-off date, i.e.,Saturday,December07, 2024, shall be entitled to avail the facility of remote e-voting / voting in the EGM. The voting rights of the members for e-voting and for physical voting at the meeting shall be in proportionate to their shareholding in the paid up equity share capital of the Company as on the said cut-off date.

Any person who acquires shares of the Company and becomes its member after the dispatch of the notice and also holds shares as on cut-off date may cast his vote by remote e-voting / voting in the EGM. Further, if already registered with CDSL for remote e-voting then you can use existing User ID and Password for casting your vote. You may also approach the Company for required assistance in connection with generation of User ID / Password in order to exercise your right to vote.

Facility of voting through Physical Ballot is being made available at the EGM. Members attending the meeting, who have not already cast their vote by remote e-voting may exercise their right at the meeting. A member who has cast his vote by remote e-voting may participate in the EGM even after exercising his right to vote through remote e-voting but shall not be allowed to vote in the meeting.

The notice of the EGM along with e-voting instructions, are available on the Company's website **https://tanvifoods.com/**and also on the website of CDSL, **www.cdslindia.com.**

Members are requested to refer e-voting instructions contained in the Notice of the extra ordinary general meeting of the Company, regarding the process and manner for e-voting by electronic means.

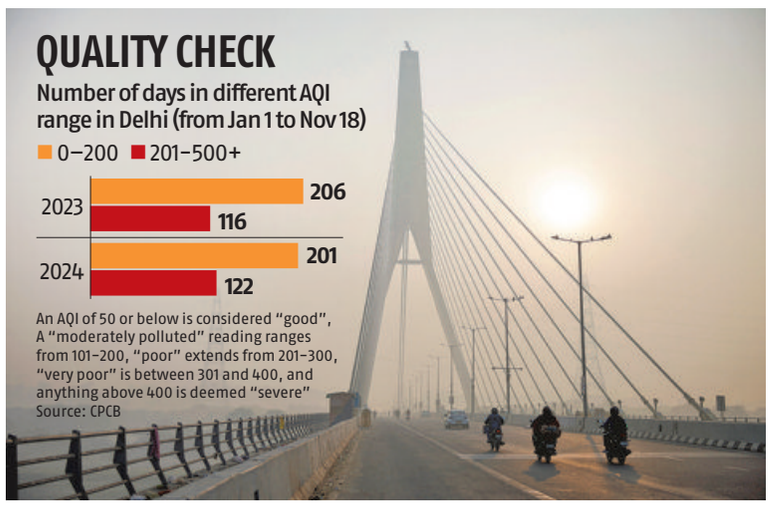

For any query or grievance, members may contact CDSL at Toll free No. 18002005533 or write an e-mail to **helpdesk.evoting@india.com** or contact the Company Secretary & Compliance Officerby writing an email to **investors@tanvifoods.com**

At 122, harmful AQI days in 2024 six more than last year

Number of days with air AQI between 0 and 200 in Delhi has stood at 201 this year so far

NITIN KUMAR
New Delhi, 20 November

The number of days with harmful air quality in Delhi has risen this year, surpassing figures from the previous years. From January 1 to November 18, there were 122 days when the air quality index (AQI) exceeded 201, compared to 116 days during the same period in 2023.

In contrast, the number of days when the AQI ranged between 0 and 200 stood at 201 this year, slightly lower than 206 days recorded last year.

According to the Central Pollution Control Board (CPCB), AQI levels between 0 and 200 are divided into three categories — good (0–50), satisfactory (51–100), and moderate (101–200).

While these levels are less harmful, their health impacts vary, ranging from minimal discomfort for sensitive individuals to moderate breathing difficulties for people with lungs, asthma, or heart conditions.

However, air quality in the poor (201–300), very poor (301–400), and severe (above 400) categories pose a significant threat to health.

Poor air quality leads to breathing discomfort for individuals during prolonged exposure, while very poor conditions can cause respiratory illnesses.

Severe levels not only affect healthy people but also severely impact those with pre-existing health issues.

The rising number of days with harmful AQI levels highlights the growing challenge of controlling air pollution. India now leads the world in the number of cities listed among the top 100 most polluted globally, surpassing China by a significant margin.

According to a recent S&P Global Mobility web presentation, 39 Indian cities feature in the list, compared to 30 cities in China, its closest competitor.

According to data from the CPCB, Delhi remains one of the most polluted cities in India. On November 18, the city recorded an average AQI of 494, the highest in the country.

Most monitoring stations in Delhi reported an AQI of 500, the upper limit of India's AQI scale.

However, the international air quality monitoring app IQAir recorded Delhi's AQI at a staggering 1,600 on the same day. The discrepancy arises from differing standards for measuring air quality across countries.

In India, the permissible limit for PM2.5 concentration is 60 micrograms per cubic metre.

Countries adhering to World Health Organization (WHO) guidelines have much stricter limits of five or 10 micrograms per cubic metre.

India's AQI scale is capped at 500, which serves as a critical threshold indicating severe pollution levels.

An AQI beyond this cap signals hazardous conditions and highlights the urgency of addressing the capital's worsening air quality.

Govt asks airlines to ensure ample staff at check-in points

DEEPAK PATEL
New Delhi, 20 November

Airlines must ensure that all check-in counters at the Delhi airport are fully staffed to minimise passenger inconvenience as smog has started affecting the flight operations, Aviation Minister Rammohan Naidu directed on Wednesday.

The minister gave this direction during a meeting with representatives of major airlines, Delhi International Airport Limited (DIAL), officials of the Ministry of Civil Aviation, Directorate General of Civil Aviation (DGCA) and the Bureau of Civil Aviation Security (BCAS).

The meeting was called on Wednesday to assess readiness of the aviation ecosystem amid the "early onset of fog/smog" in Delhi.

More than 370 flights, including departures as well as arrivals, were delayed at the Delhi airport on November 18 due to dense fog and pollution.

"Reviewing the readiness of the airport operation control room, the minister stressed the importance of real-time coordination between ATC (air traffic controller), airlines, ground handlers and airport operators to maintain seamless operation," the ministry said in a statement.

During the meeting, all the airlines confirmed adherence with the DGCA guidelines which asks them to deploy CAT-III compliant aircraft and pilots in Delhi and other fog-affected airports. The CAT-III instrument landing system (ILS) at airports enables safe aircraft landings in extremely low visibility, with CAT-III A allowing landings at a minimum visibility of 200 meters and CAT-III B at 50 meters.

"Three out of four runways at the Delhi airport have activated CAT-III ILS systems. In addition, the Delhi Airport operator has been advised to install LED screens at prominent locations to provide real-time updates on visibility conditions and to increase the availability of 'follow me' vehicles to guide aircraft during low visibility situations," the ministry mentioned.

India ranks 10th on top climate performers list

India ranked 10th on a list of over 60 countries assessed for efforts to fight climate change despite dropping two spots compared to last ago, thanks to its low per capita emissions and rapid deployment of renewables, a report said on Wednesday. The Climate Change Performance Index report leaves the first three places empty followed by Denmark (fourth place) and the Netherlands while the largest two emitters, China and the US, remain very low at 55th and 57th place, respectively. The 63 countries, along with the European Union, assessed in the CCPI are responsible for 90 per cent of global emissions. **PTI**

Now, access air quality info on Google Maps

Users across India can now access hyperlocal air quality information on Google Maps, the tech titan said on Wednesday announcing Air View+, an AI-powered and ecosystem-based solution. Google said Air View+ enables valuable air quality insights to government agencies responsible for environmental monitoring, by offering citizens hyperlocal air quality information on Google Maps.As India continues its "incredible growth momentum", backed by tech innovation and demographic advantage, it is crucial to also mitigate risks which could slow it down, Google said. **PTI**

Govt prepares logistics plan for metros to tackle traffic, pollution

SHREYA NANDI
New Delhi, 20 November

The Centre has prepared a 'City Logistics Plan' for metros such as Delhi and Bengaluru for efficient freight and logistics movement within the city, a senior official of the Department for Promotion of Industry and Internal Trade (DPIIT) said on Wednesday.

Efficient freight and logistics movement in turn will decongest large cities, reduce pollution, logistics costs, while improving the overall quality of life in cities, DPIIT Additional Secretary Rajeev Singh Thakur said.

Thakur said that the plan will help advance the government's agenda towards Ease of Doing Business (EoDB) and fulfil India's aim of achieving carbon NetZero by 2070.

LOGISTICS LAYOUT

Efficient freight and logistics movement will:

- Decongest large cities
- Reduce pollution
- Reduce logistics costs
- Improve the overall quality of life

The guideline provides a framework and methodological approach from the perspective of a city to tailor its vision, objectives and indicators to specific local needs and city characteristics, collect relevant data and analyse its freight distribution issues and choose appropriate infrastructure, policy measures and services in collaboration with other relevant actors and stakeholders.

This guideline is considered a living document that will continue to evolve through the incorporation of feedback and input from stakeholders and DPIIT will extend its support to the willing state and union territories to prepare city logistics plans.

In 2022, the government launched the National Logistics Policy which includes the support for the development of city-level logistics plans. This City Logistics Plan initiative aims to reduce the logistics costs and improve efficiency and sustainability of urban freight transport.

The official further said that several countries have adopted city logistics plans to improve the efficiency and sustainability of urban freight transport. For instance, Japan has been a pioneer in city logistics, implementing consolidation centres and other innovative solutions to manage freight effectively in densely populated urban areas. Many European countries, including Germany, France and Netherlands have developed comprehensive city logistics plans.

XIAOMI LAUNCHES ULTRA AFFORDABLE 5G SMARTPHONE

Xiaomi has launched the Redmi A4 5G in India, priced at ₹8,499 onwards (inclusive of offers). The smartphone features a 6.88-inch HD+ display of a 120Hz refresh rate, a 50MP rear camera, a 5MP front camera, and a 5,160mAh battery with 18W charging. Powered by the Qualcomm Snapdragon 4s Gen 2 processor, the smartphone is among the ultra-affordable 5G smartphones available in India. It will be available from November 27.

Google releases 1st developer preview of Android 16

Google has rolled out the first Developer Preview of Android 16 for Pixel 6 and newer models. Key features include an updated photo picker, Health Records integration, Notification Cooldown, and Audio Sharing for multiple Bluetooth headphones. The update also brings new privacy features and UI enhancements.

Asus announces ROG Phone 9 series

Asus has announced the ROG Phone 9 series, featuring the Qualcomm Snapdragon 8 Elite chip. The series includes the ROG Phone 9 and Pro models, both with a 6.78-inch Amoled display of up to 185Hz refresh rate and up to 24GB RAM. The Pro model adds a 32MP telephoto and 13MP ultra-wide camera, while both have a 50MP primary camera with a 6-axis gimbal stabilisation technology. The AniMe Vision display on the back features customisable LEDs. The phones are expected to launch in India soon.

Cricket's heavyweights pad up for pitch-perfect battle Down Under

Can the BGT claim the title of cricket's 'premier rivalry'? Jury's still out

VISHAL MENON
New Delhi, 20 November

Star batters Virat Kohli and Yashasvi Jaiswal make a splash across several Australian newspapers ahead of BGT series opener in Perth

"Hello, and welcome to all our international viewers to the WACA Ground in Perth..."

For many, the understated, mellow voice of Richie Benaud served as a window into a distant land where cricket was loud, aggressive, and played in colossal amphitheatre-like stadia.

Benaud's opening comments, streamed through the sepia-tinted *Channel 9* feed, were often a morning alarm for fans who would shiver out of their blankets to perch themselves in front of television sets.

Since Benaud's passing in 2015, much has changed.

Channel 9 lost its cricket broadcasting rights in 2018, and the WACA (Western Australian Cricket Association), the spiritual home of cricket in Western Australia, has been replaced by the futuristic 65,000-seater Optus Stadium near the banks of the Swan River.

This Friday, Optus Stadium will take centre stage as Australia and India clash in the first of a five-match Test series for the Border-Gavaskar Trophy.

The hype and frenzy surrounding this marquee series have reached a fever pitch, with many in Australia and India billing it as cricket's most storied rivalry — perhaps even outrivalling the Ashes.

Across Australian stadia turnstiles and bustling Indian markets, the Border-Gavaskar Trophy is being celebrated as the real deal — the *asli muqabala*.

Virat Kohli and the dynamic Indian opener Yashasvi Jaiswal have been dominating headlines in leading Australian newspapers.

The *Daily Telegraph* ran a full-page feature on Kohli with a Hindi headline declaring: *Yugon ki Ladai* (Fight for the Ages). Meanwhile, the Herald Sun went further, splashing Jaiswal across its sports pages with a Punjabi headline: *Ikk Navaa Raja* (The New King).

"It shows how many Indian fans there are around the world. It also shows how much we love India coming to this country and how big this series is," former Australian captain Michael Clarke told TAB.

It has been a decade since India last lost a series in Australia. The visitors have now won back-to-back series on Australian soil, in 2019 and 2021 — a testament to their evolution into a formidable travelling team.

In contrast, Australia's last series win in India was back in 2004.

A lot rides on this series.

For India, it's a chance to secure a spot in the World Test Championship final. For Australia, it's an opportunity to avoid a repeat of their last two series defeats to India.

Attendance and financial stakes are crucial motivators for Cricket Australia to position this series as a potential rival to the Ashes. Cricket Australia reported a loss of $21.34 million in 2023-24.

With this high-profile Test series on the horizon and the Ashes following next year, Cricket Australia is eyeing a financial windfall over the next 18 months.

"The financial results exceeded our expectations... reflecting a robust collaborative effort throughout Australian cricket to effectively manage costs while maximising revenue," Cricket Australia Chief Executive Officer Nick Hockley said.

It's little wonder Cricket Australia is championing this series as cricket's most storied rivalry.

Not everyone is convinced.

"The very idea of labelling anything as a premier series is bad and toxic.

Financially, we are so dominant that more teams want to play us," Mukul Kesavan, historian and author of Men in White, told *Business Standard*.

"But we were just beaten 3-0 by New Zealand at home. For us to call the Australia series the premier one is a bit smug — especially when Sri Lanka defeated New Zealand 2-0 and then absolutely smashed us. For us to fly to Australia and call this the asli muqabala is laughable," Kesavan elaborated.

There was a time when England and Australia dominated world cricket, and the sport's priorities revolved around them.

Since the turn of the century, India has joined this elite club, now called cricket's 'Big Three'. Together, these three nations generate more than 80 per cent of cricket's revenues and dominate broadcasting deals.

"What's happening now is a similar kind of narcissism. Indian cricket was once weak, but now we are the economic ecology of cricket — we sustain the entire ecosystem," Kesavan explained.

He cautioned against the peculiar ghamand (arrogance) where any series India plays, or any rival India nominates, is deemed cricket's 'greatest rivalry'.

Nevertheless, Kesavan conceded that the Border-Gavaskar Trophy has all the ingredients for a terrific series.

"It's an A-list series... I'm looking forward to it. It's always a pleasure to watch cricket on Australian grounds," he added.

Benaud might have summed it up in his inimitable style if he were still around: "Buckle up, folks. We're in for a marvellous ride."

డైవర్షన్ పాలి'ట్రిక్స్'

- రాష్ట్రంలో అధికార, ప్రతిపక్షాల మధ్య విమర్శల యుద్ధం
- వ్యక్తిగత విమర్శలతో ప్రజాసమస్యలు గాలికి
- ట్విటర్ టిల్లు, చిట్టినాయుడు అంటూ వంగ్య వాగ్బాణాలు
- సంచలన ప్రకటనలతో కాలం వృధా

నవతెలంగాణ ప్రత్యేక ప్రతినిధి-హైదరాబాద్

రాష్ట్ర రాజకీయాల్లో హుందాతనం కొరవడుతున్నది. సద్విమర్శల స్థానే వ్యక్తిగత ఆరోపణలు చోటుచేసుకుంటున్నాయి. అధికార, ప్రతిపక్షాల మధ్య విమర్శల యుద్ధం కొనసాగుతుంటే, ప్రజా సమస్యలు గాల్లో దీపాలవుతున్నాయి. రాష్ట్రంలో డైవర్షన్ పాలిటిక్స్ నడుస్తున్నాయి. జనంగోడు ఎజెండా కావాల్సిన తరుణంలో స్వార్థ రాజకీయ ప్రయోజనాలు పరకాయప్రవేశం చేస్తున్నాయి. తాజాగా కాంగ్రెస్, బీఆర్‌ఎస్ మధ్య చోటుచేసుకుంటున్న పరిణామాలతో ఆశ్చర్యపోవడం ప్రజల వంతవుతున్నది. ఇదే అదనుగా బీజేపీ చోద్యం చూస్తున్నది.

ప్రధానంగా ముఖ్యమంత్రి ఎనుముల రేవంత్‌రెడ్డి, బీఆర్‌ఎస్ వర్కింగ్ ప్రెసిడెంట్ కె.తారక రామారావు మధ్య జరుగుతున్న విమర్శల పరంపర అందరికీ తెలిసిందే. కేటీఆర్‌ను కాంగ్రెస్ ట్విటర్ టిల్లు అంటే, సీఎం రేవంత్‌ను బీఆర్‌ఎస్ చిట్టినాయుడు అంటూ వ్యంగ్యంగా వ్యాఖ్యలు చేస్తుండటం చూస్తున్నాం. రాష్ట్ర ఆర్థిక పరిస్థితుల నేపథ్యంలో సాధ్యమైనంతలో హామీలను అమలుచేస్తున్నామని కాంగ్రెస్ అంటుండగా, మీరిచ్చిన వాగ్దానాలు మూసీలో కొట్టుకుపోయాయని బీఆర్‌ఎస్ చెబుతున్నది. కాంగ్రెస్ నుంచి సీఎంతోపాటు మంత్రులు శ్రీధర్‌బాబు, పొంగులేటి, సీతక్క, కోమటిరెడ్డి తదితరులు తెలంగాణ భవన్‌పై ఒంటికాలిపై లేస్తున్నారు. అలాగే గాంధీభవన్‌పై కేటీఆర్, హరీశ్‌రావు, సబితా ఇంద్రారెడ్డి తదితరులు గళం వినిపిస్తున్నారు. టిట్ ఫర్ టాట్‌లా ఒకరిపై మరొకరు ఆరోపణలు, విమర్శలు చేసుకుంటూ అసలు విషయాలపై ప్రజల దృష్టిని మళ్లిస్తున్నారు. రాష్ట్ర రాజకీయాలు జుగుప్సాకరంగా తయారయ్యాయని రాజకీయ విశ్లేషకులు అంటున్నారు. విధానాల ప్రాతిపదికన కాకుండా వ్యక్తిగత అంశాల ఆధారంగా రాజకీయాలు నడుస్తుండటంతో ప్రజాసమస్యల ఎజెండా పక్కకుపోతున్నదని వామపక్షాలు అభిప్రాయపడుతున్నాయి. రాజకీయాల్లో ఆరోగ్యకరమైన వాతావరణం కొరవడుతుండటం, హుందాతనం లోపిస్తుండటంతో ఇటు పాలకపక్షం, అటు ప్రతిపక్షం యువతకు, భవిష్యత్ తరాలకు ఎలాంటి విలువలు, ఆదర్శాలు వారసత్వంగా లభిస్తాయనేది మిలియన్ డాలర్ల ప్రశ్న. విధానాలపై సద్విమర్శలు చేసే బదులు ఇలా వ్యక్తిగత దూషణలకు దిగడం సామాన్యులు, పేదలకు ఎలాంటి ప్రయోజనాలూ చేకూర్చదు.

రాష్ట్రంలో కాంగ్రెస్ పాలన ప్రజాస్వామ్యయుతంగా లేదనే వ్యాఖ్యానాలు వినిపిస్తున్నాయి. రుణమాఫీ, మహిళలకు ఉచిత బస్సు ప్రయాణం తదితర ఒకట్రెండు హామీలు మినహా మెజార్టీ హామీలు విస్మరించారని ప్రతిపక్షాలు అంటున్నాయి. తొలుత హైడ్రా పేరుతో సర్కారుకు జనంలో క్రేజ్ పెరిగింది. కష్టపడి నాలుగు పైసలు వెనకేసుకుని కొన్న పేదల ఇండ్లను కూలగొట్టేందుకు హైడ్రా ముందుకు రావడంతో కొంత అసంతృప్తి నెలకొంది. అధికారంలో ఉన్న వాళ్లు బాధ్యతతో వ్యవహరించాలి. ప్రతిపక్షంలో ఉన్నవాళ్లు సర్కారుకు నిర్మాణాత్మక సలహాలు, సూచనలు అందించాలి. ప్రస్తుతం రాష్ట్రంలో ఈ రెండూ ప్రశ్నార్థకమవుతున్నాయి. ఇదిలావుంటే సందట్లో సడేమియాలా బీజేపీ లబ్ది పొందాలని చూస్తున్నది. అధికార, ప్రతిపక్షాలను తప్పుబట్టడమే తప్పితే, మోడీ సర్కారు నుంచి నాలుగు రూపాయలు ఎక్కువ తెచ్చి రాష్ట్రాభివృద్ధికి సహకరించే ఆలోచన లేదు. ఎంతసేపూ మోడీ, అమిత్‌షాలకు బాకా ఊదే కేంద్ర మంత్రులు, రాష్ట్ర ఆర్థికస్థితిని మెరుగుచేసే ప్రయత్నమే చేయడం లేదు. సాధారణ నిధుల దగ్గర నుంచి జీఎస్టీ కాసుల వరకు హక్కుగా రావాల్సిన వాటిని మోడీ సర్కారు అడ్డుకుంటున్నది. కొర్రీలు పెడుతూ తెలంగాణ పట్ల వివక్ష ప్రదర్శిస్తున్నది. ప్రజల భావోద్వేగాలతో ఆడుకుంటూ మతోన్మాదాన్ని రెచ్చగొడుతున్నది. వీరు సైతం సంచలన రాజకీయ ప్రకటనలకే పరిమితమవుతున్నారు. రాష్ట్రానికి మంజూరై పనులు ఆలస్యమవుతున్న జాతీయ రహదారులపై ఇద్దరు కేంద్రమంత్రులకు దృష్టి లేదు. భారీ వర్షాలతో నష్టపోయిన రాష్ట్రానికి సాయం చేసే విషయమై పట్టింపు అంతకన్నా లేదు. మూసీ నిద్ర అంటూ కాలం గడపడం తప్ప పటిష్ట కార్యాచరణ అసలే లేదు. రాష్ట్రం అప్పులకుప్పగా మారుతున్న తరుణంలో ఆదుకోవాల్సిన కేంద్రం చోద్యం చూస్తుండగా, రాష్ట్రానికి చెందిన కేంద్ర మంత్రులిద్దరూ, నవ్విపోదురుగాక నాకేటి సిగ్గు అనే చందాన వ్యవహరిస్తుండటం గమనార్హం.

IN THE COURT OF THE HON'BLE I ADDL. JUNIOR CIVIL JUDGE CUM IX ADDL. JUDICIAL MAGISTRATE OF FIRST CLASS, RANAGREDDY DIST AT KUKATPALLY

O.S. NO : 1065 of 2022

Between :

ప్రకటన

ఇందుమూలంగా ప్రకటన ఇవ్వడమేమనగా కంపెనీ యొక్క అసాధారణ సర్వసభ్య సమావేశం (ఇజిఎం), కంపెనీ యొక్క రిజిస్టర్డు ఆఫీసు: ఫ్లాట్ నెం.101, అలేఖ్య హోమ్స్ టెంపుల్ ట్రీ, రాఘవేంద్ర కాలనీ, కొండాపూర్, హైదరాబాద్-500084, తెలంగాణ వద్ద శనివారం, 14 డిసెంబర్, 2024 ఉ.11.00గం.లకు నిర్వహించబడును. సదరు ఇజిఎం నోటీసు, ఇ-ఓటింగ్ సూచనాలను డిపాజిటరీలతో వారి ఇమెయిల్ ఐడిలను రిజిస్టర్డుచేసిన సభ్యులకు ఎలక్ట్రానికల్లీ మరియు ఇతర సభ్యులందరికీ భౌతిక విధానంలో వారి రిజిస్టర్డు చిరునామాలకు కంపెనీ పంపించింది. ఇజిఎం నోటీసు డిస్పాచ్/ ఇ-మెయిల్ ట్రాన్స్‌మిషన్ 20 నవంబర్, 2024న పూర్తిఅయినది. ఇతర పత్రాలతోపాటుగా సదరు నోటీసు యొక్క కాపీలను కంపెనీ వెబ్‌సైట్: (https://tanvifoods.com/) లో లభించును మరియు కార్యాలయపు వేళల్లో కంపెనీ యొక్క రిజిస్టర్డు ఆఫీసు వద్ద తనిఖీ నిమిత్తం అందుబాటులో ఉండును.

సవరించినట్లుగా కంపెనీస్ (మేనేజ్‌మెంట్ మరియు అడ్మినిస్ట్రేషన్) రూల్స్, 2014 యొక్క రూల్స్ 20తో చదవగల కంపెనీల చట్టం, 2013 యొక్క సెక్షన్ 108 మరియు సెబీ (లిస్టింగ్ ఆబ్లిగేషన్స్ అండ్‌డిస్క్లోజర్ రిక్వైర్‌మెంట్స్) రెగ్యులేషన్స్, 2015 యొక్క రెగ్యులేషన్ 44ను అనుసరించి, ఇజిఎం వద్ద నిర్వహించబడు వ్యాపారం యొక్క అన్ని అంశాలకు సంబంధించి ఇ-ఓటింగ్ సదుపాయాన్ని కంపెనీ దీని సభ్యులకు కల్పిస్తున్నది.సభ్యులు ఎలక్ట్రానిక్ విధానంచే ఓటింగ్ ద్వారా సదరు వ్యాపారం లావాదేవీలు జరుపవచ్చును. ఇ-ఓటింగ్ సదుపాయాన్ని కల్పించుటకు అథరైజ్డ్ ఏజెన్సీగా సెంట్రల్ డిపాజిటరీ సర్వీసెస్ (ఇండియా) లిమిటెడ్ (సిడిఎస్ఎల్)ను కంపెనీ నియమించింది.

రిమోట్ ఇ-ఓటింగ్ సదుపాయం బుధవారం, 11 డిసెంబర్, 2024న ఉ.9.00గం.లకు ప్రారంభమగును మరియు శుక్రవారం, 13 డిసెంబర్, 2024న సా.5.00గం.లకు ముగియును (రెండు రోజులతోసహా) మరియు ఆ తరువాత అందుబాటులో ఉండదు. సదరు తేది మరియు సమయం తరువాత రిమోట్ ఇ-ఓటింగ్‌కు అనుమతి ఉండదు మరియు ఆరువాత ఓటింగ్ కొరకు ఇ-ఓటింగ్ మోడ్యూల్స్ డిసబుల్ చేయబడును. ఈ కాలవ్యవధిలో, కటాఫ్ తేది అనగా శనివారం, 07 డిసెంబర్, 2024 నాటికి డిపాజిటరీ ద్వారా నిర్వహించబడుతున్న సభ్యుల రిజిస్టర్ లేదా బెనిఫిషియల్ ఓనర్స్ రిజిస్టర్‌లో పేరు రికార్డుకాబడిన వ్యక్తి మాత్రమే ఇజిఎంలో రిమోట్ ఇ-ఓటింగ్/ ఓటింగ్ సదుపాయం పొందుటకు అర్హులు. సమావేశంలో ఇ-ఓటింగ్ మరియు ఫిజికల్ ఓటింగ్ కొరకు సభ్యులఓటింగ్ హక్కులు అనునవి కటాఫ్ తేది నాటికి కంపెనీ యొక్క చెల్లించిన ఈక్విటీ వాటా మూలధనంలోని వారి షేర్‌హోల్డింగ్ నిష్పత్తిలో ఉంటాయి.

కంపెనీ యొక్క వాటాలను కలిగియున్న మరియు నోటీసు డిస్పాచ్ తరువాత దీని సభ్యులుగా మారినా మరియు కటాఫ్ తేది నాటికి వాటాలను కలిగియున్న ఎవరైనా వ్యక్తి ఇజిఎంలో రిమోట్ ఇ-ఓటింగ్/ ఓటింగ్ హక్కును వినియోగించుకోవచ్చును. తదుపరిగా, ఒకవేళ మీరు రిమోట్ ఇ-ఓటింగ్‌కు సిడిఎస్ఎల్‌తో ఇది వరకే నమోదచేసివుంటే అపుడు మీ ఓటు హక్కును వినియోగించుటకు సంబంధించి ప్రస్తుతమున్న యూజర్ ఐడి మరియు పాస్‌వర్డ్‌ను ఉపయోగించుకోవచ్చును. ఓటు హక్కును పొందు క్రమంలో యూజర్‌ఐడి/ పాస్‌వర్డ్ జనరేషన్‌కు సంబంధించి అవసరమైన సహాయానికి కంపెనీ వారిని కూడా మీరు సంప్రదించవచ్చును.

ఇజిఎం వద్ద ఫిజికల్ బ్యాలెట్ ద్వారా ఓటింగ్ సదుపాయం అందుబాటులో ఉంటుంది. మీటింగ్ హాజరవుతున్న సభ్యులు, రిమోట్ ఇ-ఓటింగ్ ద్వారా వారి ఓటు హక్కును ఇదివరకు వినియోగించుకోని వారు సమావేశంలో వారిఓటు హక్కును వినియోగించుకోవచ్చును. రిమోట్ ఇ-ఓటింగ్ ద్వారా వారి ఓటు హక్కును వినియోగించుకున్న తరువాత కూడా సభ్యులు ఇజిఎంలో హాజరు కావచ్చును కానీ సమావేశంలో మళ్లీ ఓటు హక్కును వినియోగించుటకు అనుమతి ఉండదు.

ఇ-ఓటింగ్ ఇన్‌స్ట్రక్షన్స్ తోసహా ఇజిఎం నోటీసు కంపెనీ యొక్క వెబ్‌సైట్: https://tanvifoods.com/ పై మరియు సిడిఎస్ఎల్ వెబ్‌సైట్: www.cdslindia.com నందు కూడా అందుబాటులో ఉంటుంది.

ఎలక్ట్రానిక్ విధానం ద్వారా ఇ-ఓటింగ్ కొరకు ప్రక్రియ మరియు విధానానికి సంబంధించి, కంపెనీ యొక్క అసాధారణ సర్వసభ్య సమావేశపు నోటీసులో పేర్కొన్న ఇ-ఓటింగ్ సూచనలను రిఫర్ చేసుకోవాల్సిందిగా సభ్యులను కోరడమైనది.

ఏవేని విచారణలు లేదా గ్రీవెన్స్ విషయంలో సభ్యులు సిడిఎస్ఎల్ వారిని టోల్ ఫ్రీ నెం:18002005533 పై సంప్రదించవచ్చు లేదా helpdesk. evoting@cdslindia.com కు ఇమెయిల్ చేయవచ్చు లేదా కంపెనీ సెక్రటరీ & కంప్లియన్స్ ఆఫీసర్ వారిని investors@tanvifoods. com కు ఇమెయిల్ ద్వారా సంప్రదించవచ్చును.

97వ వసంతంలోకి చుక్కా రామయ్య

జన్మదిన శుభాకాంక్షలు తెలిపిన పలువురు ప్రముఖులు

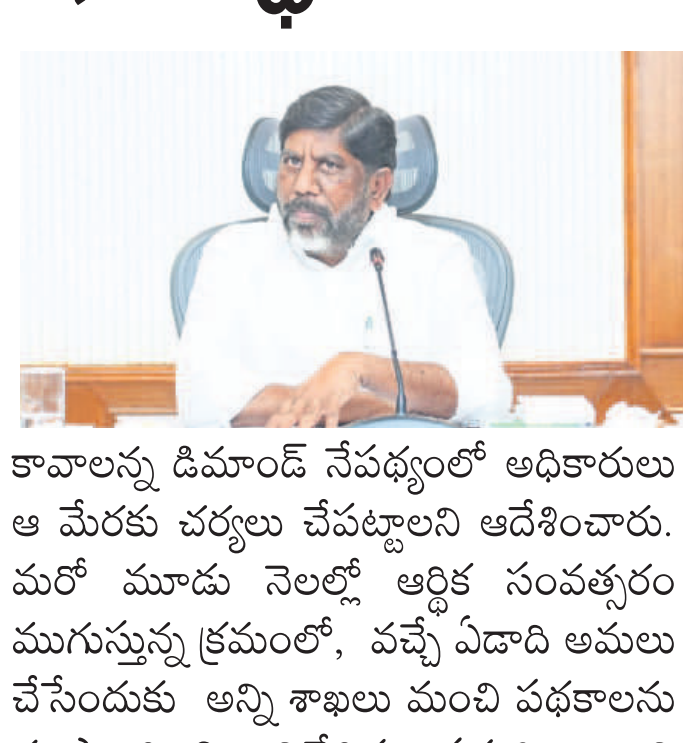

నవతెలంగాణ బ్యూరో - హైదరాబాద్

తెలంగాణ సాయుధ రైతాంగ పోరాట యోధుడు, ప్రముఖ విద్యావేత్త, మాజీ ఎమ్మెల్సీ చుక్కా రామయ్య 97వ వసంతంలోకి అడుగుపెట్టారు. 96 వసంతాలు పూర్తయ్యాయి. 1928, నవంబర్ 20న జనగామ జిల్లా గూడూరు గ్రామంలో ఆయన జన్మించారు. ఐఐటీ శిక్షణా కేంద్రాన్ని స్థాపించడం కోసం ఆయన హైదరాబాద్‌కు వచ్చారు. ఐఐటీ శిక్షణలో మంచి పేరు ప్రఖ్యాతులు సంపాదించుకుని ఐఐటీ రామయ్యగా గుర్తింపు తెచ్చుకున్నారు. ఆయన జన్మదిన వేడుకలు బుధవారం హైదరాబాద్‌లోని విద్యానగర్‌లో ఆయన నివాసంలో జరిగాయి. ఈ సందర్భంగా పలువురు ప్రముఖులు, శ్రేయోభిలాషులు ఆయన నివాసానికి వచ్చి శుభాకాంక్షలు తెలిపారు. మాజీ హోంమంత్రి, కాంగ్రెస్ సీనియర్ నేత జానారెడ్డి, రాష్ట్ర ప్రభుత్వ ప్రధాన కార్యదర్శి (సీఎస్) శాంతికుమారి చుక్కా రామయ్య నివాసానికి వచ్చి పుష్పగుచ్ఛం అందించి శుభాకాంక్షలు తెలిపారు. స్వయంగా ఆమె రామయ్యతో కేక్ కట్ చేయించారు. ఎమ్మెల్సీలు కోదండరామ్, అలుగుబెల్లి నర్సిరెడ్డి, రిటైర్ట్ న్యాయమూర్తి జస్టిస్ బి సుదర్శన్‌రెడ్డి, విద్యాశాఖ ముఖ్యకార్యదర్శి బుర్రా వెంకటేశం, టీఎస్‌యూటీఎఫ్ రాష్ట్ర అధ్యక్షులు కె జంగయ్య, ప్రధాన కార్యదర్శి చావ రవి, రాష్ట్ర కమిటీ సభ్యులు వెంకటప్ప, వందన, సీనియర్ నాయకులు మస్తాన్‌రావుతోపాటు సీనియర్ సంపాదకులు కె రామచంద్రమూర్తి, ప్రొఫెసర్ హరగోపాల్, సీనియర్ పాత్రికేయులు మల్లేపల్లి లక్ష్మయ్య, వందేమాతరం ఫౌండేషన్ వ్యవస్థాపకులు రవీందర్ తదితరులు రామయ్యను కలిసి శుభాకాంక్షలు తెలిపారు.

నిధుల ఖర్చు పర్యవేక్షణ ఆర్థిక శాఖదే

- ముఖ్యకార్యదర్శికి ఆ భాధ్యత : ఎస్సీ, ఎస్టీ సబ్ ప్లాన్ సమీక్షలో డిప్యూటీ సీఎం భట్టి

నవతెలంగాణ బ్యూరో - హైదరాబాద్

ఎస్సీ, ఎస్టీ సబ్ ప్లాన్ చట్టం అమలు, నిధుల ఖర్చుపై ఇకనుంచి ఆర్థిక శాఖ ప్రిన్సిపల్ సెక్రెటరీ పర్యవేక్షిస్తారని డిప్యూటీ సీఎం మల్లు భట్టి విక్రమార్క అన్నారు. బుధవారం హైదరాబాద్‌లోని సచివాలయంలో ఎస్సీ, ఎస్టీ అభివృద్ధిపై 32 శాఖలతో సమీక్ష నిర్వహించారు. శాఖల వారీగా కేటాయించిన నిధులు, చేసిన ఖర్చు, గతేడాది వ్యయం చేయకుండా మిగిలిపోయిన నిధులు తదితర వివరాలు అడిగి తెలుసుకున్నారు. సబ్‌ప్లాన్ చట్టం అమలుపై సెస్ సమర్పించిన నివేదికలు అధ్యయనం చేయాలని సంబంధిత అధికారులను ఆదేశించారు. ఆర్థిక శాఖలో రిసర్చ్ సెంటర్ ఏర్పాటుచేసి ప్రత్యేక పథకాలు రూపకల్పన చేయాలని సూచించారు. ఎస్సీ, ఎస్టీ సబ్‌ప్లాన్‌పై అన్ని శాఖలు 30 రోజుల్లో నివేదిక ఇవ్వాలని కోరారు. గిరిజన తండాలకు త్రీ ఫేస్ విద్యుత్ సరఫరా కావాలన్న డిమాండ్ నేపథ్యంలో అధికారులు ఆ మేరకు చర్యలు చేపట్టాలని ఆదేశించారు. మరో మూడు నెలల్లో ఆర్థిక సంవత్సరం ముగుస్తున్న క్రమంలో, వచ్చే ఏడాది అమలు చేసేందుకు అన్ని శాఖలు మంచి పథకాలను రూపొందించి నివేదిక సమర్పించాలని సూచించారు. గత ప్రభుత్వ చర్యల మూలంగా పదేండ్లపాటు అర్హులైన వారు లబ్ధి పొందలేకపోయారనీ, కాంగ్రెస్ సర్కార్ హయాంలో అలాంటి వాతావరణం పునరావృతం కాకుండా చర్యలు తీసుకోవాలని ఆదేశించారు. సమీక్షలో ప్రభుత్వ ప్రత్యేక కార్యదర్శి వికాస్‌రాజ్, ఆర్థికశాఖ కార్యదర్శి సందీప్‌కుమార్ సుల్తానియా, ఎస్టీ సంక్షేమ శాఖ కార్యదర్శి శరత్, ఎస్సీ సంక్షేమ శాఖ కార్యదర్శి శ్రీధర్, నీటిపారుదల శాఖ కార్యదర్శి రాహుల్ బొజ్జ, సీడీఎంఏ కమిషనర్ శ్రీదేవి, ఆర్టీసీ ఎండి సజ్జనార్ తదితరులు పాల్గొన్నారు.

రైతులకు శుభవార్త

ఆత్మవిశ్వాసమే విజయానికి తొలిమెట్టు

- బీఆర్‌ఆర్‌జీహెచ్ఎస్ స్పోర్ట్స్ డేలో రిటైర్డ్ ఐపీఎస్ అధికారిణి అరుణ బహుగుణ

నవతెలంగాణ-హైదరాబాద్‌బ్యూరో

విద్యార్థులు ఉన్నత శిఖరాలు అధిరోహించడానికి ఆత్మవిశ్వాసమే తొలి మెట్టుగా ఉండాలని రిటైర్డ్ ఐపీఎస్ అధికారిణి అరుణ బహుగుణ అన్నారు. ముఖ్యంగా విద్యార్థినులు జీవిత లక్ష్యాలను నిర్దేశించుకొని, దానికోసం సక్రమమార్గంలో కఠోర సాధన చేయాల్సి ఉంటుందని దిశానిర్దేశం చేశారు. వారి కలలు సాకారం చేసుకోవడానికి తప్పనిసరిగా తల్లిదండ్రుల ప్రోత్సాహం, ఉపాధ్యాయుల మార్గనిర్దేశనం అత్యవసరమని చెప్పారు. బర్కత్‌పురాలోని తెలంగాణ యువతి మండలి ఆధ్వర్యంలో నిర్వహిస్తున్న రాణి జే సరళాదేవి శిశు విహార్ మాంటిస్సోరి స్కూల్, బూర్గుల రామకృష్ణా రావు బాలికోన్నత పాఠశాల (బీఆర్‌ఆర్‌జీహెచ్ఎస్) క్రీడా దినోత్సవాలు (స్పోర్ట్స్ డే), వార్షిక బహుమతి ప్రదానోత్సవ కార్యక్రమానికి ఆమె ముఖ్య అతిథిగా హాజరై మాట్లాడారు. విద్యార్థినుల్లో అంతర్లీనంగా ఉన్న ఔత్సాహిక ప్రత్యేకతలను గుర్తించి, ఆ దిశగా వారిని ఉపాధ్యాయులు ప్రోత్సహించాలని సూచించారు. సెల్‌ఫోన్ల మాయలో పడొద్దనీ, చదివే వయసులో ఇష్టంగా కష్టపడుతూ, సవాళ్లను స్వీకరిస్తే జీవితంలో ఉన్నత శిఖరాలు చేరడం ఏమాత్రం కష్టం కాదని పలు ఉదాహరణలు చెప్పారు. కార్యక్రమానికి తెలంగాణ యువతి మండలి జాయింట్ సెక్రటరీ, కరస్పాండెంట్ కే మంజులాదేవి అధ్యక్షత వహించారు. మండలి అధ్యక్ష, కార్యదర్శులు ఆర్ పద్మజా మల్లిఖార్జున్, నివేదిత కుమార్, కోశాధికారి ఆనందగౌరి, బీఆర్‌ఆర్‌జీహెచ్ఎస్ ప్రధానోపాధ్యాయురాలు జీటీ జ్యోతి, శిశువిహార్ మాంటిస్సోరి స్కూల్ ప్రధానోపాధ్యాయురాలు బీ శ్రీవాణి పాల్గొన్నారు. అంతకు ముందు వ్యాయామ, క్రీడా శిక్షకురాలు సంధ్య ఆధ్వర్యంలో విద్యార్థినులు మార్చ్‌ఫాస్ట్ నిర్వహించారు. అరుణ బహుగుణ గౌరవ వందనం స్వీకరించారు. పలు పోటీల్లో విజయం సాధించిన విద్యార్థినులకు బహుమతులు అందచేశారు.

ప్రయివేటు కాలేజీల సమస్యలపై సానుకూలంగా ఉన్నాం

యాజమాన్యాల సమావేశంలో డిప్యూటీ సీఎం భట్టి

నవతెలంగాణ బ్యూరో - హైదరాబాద్

రాష్ట్రంలో ప్రయివేటు ఇంటర్, డిగ్రీ కాలేజీల సమస్యల పట్ల ప్రభుత్వం సానుకూలంగా ఉందని ఉప ముఖ్యమంత్రి భట్టి విక్రమార్క చెప్పారు. బుధవారం హైదరాబాద్‌లోని డాక్టర్ బీఆర్ అంబేద్కర్ సచివాలయంలో కాలేజీ యాజమాన్యాలతో ఆయన సమావేశమయ్యారు. ఉన్నత విద్యామండలి చైర్మెన్ వి బాలకిష్టారెడ్డి, ప్రయివేటు కాలేజీ యాజమాన్యాల సంఘం అధ్యక్షులు సూర్యనారాయణరెడ్డి, ప్రధాన కార్యదర్శి యాద రామకృష్ణ, ఇతర నాయకులు నాగయ్య తదితరులతో వివిధ అంశాలపై చర్చించారు. కాలేజీల సమస్యలను దశలవారీగా పరిష్కరిస్తామని భట్టి హామీ ఇచ్చారు.

డైట్ కాలేజీల్లో ఫేషియల్ రికగ్నిషన్ అటెండెన్స్ విధానం

- ప్రస్తుత విద్యాసంవత్సరం నుంచే అమలు

నవతెలంగాణ బ్యూరో - హైదరాబాద్

రాష్ట్రంలోని ప్రభుత్వ, ప్రయివేటు డైట్ కాలేజీల్లో ఫేషియల్ రికగ్నిషన్ అటెండెన్స్ విధానం (ఎఫ్ఆర్ఎస్)ను అమలు చేయాలని ప్రభుత్వం నిర్ణయించింది. ప్రస్తుత విద్యాసంవత్సరం (2024-25) నుంచే దీన్ని అమలు చేయనున్నట్టు ప్రకటించింది. ఈ మేరకు పాఠశాల విద్యాశాఖ సంచాలకులు ఈవి నరసింహారెడ్డి బుధవారం ఉత్తర్వులు విడుదల చేశారు. డైట్ కాలేజీల్లో పనిచేస్తున్న బోధన, బోధనేతర సిబ్బందితోపాటు విద్యార్థులకు కూడా ఎఫ్ఆర్ఎస్‌ను అమలు చేస్తామని తెలిపారు. ఇందుకు సంబంధించి ఆర్ఎన్ఐటీ సొల్యూషన్స్ అండ్ సర్వీసెస్ లిమిటెడ్ సంస్థకు ఎఫ్ఆర్ఎస్ అమలుకు సంబంధించి సాంకేతిక సహకారాన్ని అందిస్తుందని పేర్కొన్నారు.

78 శాతం సర్వే పూర్తి

నవతెలంగాణ-హైదరాబాద్‌బ్యూరో

రాష్ట్ర ప్రభుత్వం నిర్వహిస్తున్న సామాజిక, ఆర్థిక, విద్యా, ఉద్యోగ, రాజకీయ, కుల గణన బుధవారంనాటికి 78 శాతం పూర్తయ్యింది. ఇప్పటి వరకు 90,56,383, నివాసాలలో సర్వే పూర్తి అయినట్టు ప్రభుత్వం ఓ ప్రకటనలో తెలిపింది. ఇప్పటి వరకు సర్వేలో ములుగు జిల్లా ప్రథమస్థానంలో ఉండగా జనగాం, నల్గొండ జిల్లాలు ద్వితీయ, తృతీయ స్థానాల్లో ఉన్నాయని పేర్కొన్నారు. కామరెడ్డిలో 93.3 శాతం, మంచిర్యాల 93.2 శాతం, యాదాద్రి భువనగిరి 92.3 శాతం, నిజామబాద్ 91 శాతం, రాజన్న సిరిసిల్ల జిల్లాలో 90.9 శాతం జగిత్యాల 90.6 శాతం చొప్పున సర్వే పూర్తి చేశారని వివరించారు. గ్రేటర్ హైదరాబాద్ మున్సిపల్ కార్పొరేషన్ (జీహెచ్ఎంసీ) పరిధిలో 25,05,517 నివాసాలు సర్వే చేయల్సి వుండగా, ఇప్పటి వరకు 13,91,817 నివాసాల్లో (55.6 శాతం) సర్వే పూర్తయినట్టు తెలిపారు.

'స్థానికం'లో బీసీ రిజర్వేషన్ల ఖరారుకు ప్రయత్నం

- కులగణన తర్వాత నివేదిక : డెడికేటెడ్ కమిషన్ చైర్మెన్ బీ వెంకటేశ్వరరావు వెల్లడి

నవతెలంగాణ-హైదరాబాద్‌బ్యూరో

స్థానిక సంస్థల్లో బీసీలకు రిజర్వేషన్ కేటాయించేందుకు సమగ్రమైన నివేదిక ఇవ్వడానికి ప్రయత్నం చేస్తున్నామని డెడికేటెడ్ కమిషన్ చైర్మెన్ బీ వెంకటేశ్వరరావు చెప్పారు. బుధవారం డెడికేటెడ్ కమిషన్ కార్యాలయంలో వివిధ రాజకీయ పార్టీల నుంచి, బీసీ సంఘాలు, బీసీ మేధావుల నుంచి వినతిపత్రాలు స్వీకరించిన అనంతరం ఆయన మీడియాతో మాట్లాడారు. రాష్ట్ర ప్రభుత్వం నియమించిన డెడికేటెడ్ కమిషన్ బృందం ఇప్పటివరకు ఐదు ఉమ్మడి జిల్లాల్లో పర్యటించి అక్కడి ప్రజలు, స్వచ్ఛంధ సంస్థలు, బీసీ కుల సంఘాలు, మేధావుల నుంచి సమాచారం తీసుకున్నామని తెలిపారు. ఈనెల 21న వరంగల్ జిల్లా కలెక్టరేట్ కార్యాలయంలో బహిరంగ విచారణ నిర్వహిస్తున్నామని చెప్పారు. ఉమ్మడి వరంగల్ జిల్లా పరిధిలోని వారంతా తమ అభ్యర్థనలను కమిషన్‌కు అందించవచ్చన్నారు. జిల్లాల్లో ప్రజలనుంచి అనూహ్యమైన స్పందన వస్తుందనీ, త్వరలో మిగతా జిల్లాల్లో పర్యటించి వివరాలు తెలుసుకుంటామని చెప్పారు. తాము ఊహించిన దాని కన్నా ఎక్కువగా వినతిపత్రాలు వస్తున్నాయన్నారు. కుల గణన పూర్తి వివరాలు వచ్చిన తర్వాత వాటన్నింటిని పరిగణనలోకి తీసుకుని బీసీలకు రాజకీయ రిజర్వేషన్ల కోసం ఎలాంటి న్యాయపరమైన సమస్యలు తలెత్తకుండా నివేదికను అందించే ప్రయత్నం చేస్తున్నామని వివరించారు. బీజేపీ బీసీ సెల్ నాయకులు, వివిధ కుల సంఘాల నేతలు కమిషన్‌ను కలిసి వినతి పత్రాలు అందించారు. జనాభా లెక్కల ప్రకారం బీసీలకు రిజర్వేషన్లు కేటాయించాలని కోరారు. డెడికేటెడ్ కమిషన్ కార్యదర్శి బడుగు సైదులు, ఎంబీసీ చైర్మెన్ అలోక్‌కుమార్ తదితరులు పాల్గొన్నారు.
